

Calgary Roofer Kristian Lamthi Launches Top Star Roofing Inc. Website After 15+ Years on the City's Roofs

Family-run, owner-operated roofing company brings a no-subcontractor promise, & a Calgary-specific service lineup covering hail damage, flat roofs, & attic rain

CALGARY, AB, CANADA, June 10, 2026 /EINPresswire.com/ -- [Top Star Roofing Inc.](#), a family-run roofing company based in southeast Calgary, has officially launched its new website at [topstarroofing.ca](#). The launch marks a milestone for owner Kristian Lamthi, who founded the company after more than 15 years of hands-on roofing work across Calgary — through every major hailstorm since 2010, every chinook cycle, and every attic rain winter.

The logo for Top Star Roofing Inc. It features the words "TOP" and "STAR" in a large, bold, black, sans-serif font. A gold star is positioned between "TOP" and "STAR". Below "TOP" and "STAR" is a thin horizontal line. Underneath the line, the words "ROOFING INC" are written in a smaller, gold, sans-serif font.

Top Star Roofing Inc logo

The new site reflects how the company actually operates: when homeowners call (403) 603-0650, they talk directly to Kristian. When a quote is given, the person who wrote it is the person on the roof. Top Star uses no subcontractors — every project is completed by Kristian and his own small, trained crew. "Kristian didn't learn roofing from a textbook. He learned it on ladders, in Calgary winters, through summer hailstorms," the company's [About page reads](#). After 700+ completed projects, he launched Top Star Roofing Inc. to do things the way he believed they should be done: owner on every job, honest quotes, and work that holds up.

A website built around Calgary's specific roofing problems

Rather than generic service pages, [topstarroofing.ca](#) addresses the roofing issues unique to Calgary's climate:

Roof Repair — leak tracing, wind-lifted shingles, flashing failures, and rotted decking, with a focus on finding the source rather than patching the stain

Hail-Resistant Roofing — UL 2218 Class 4 shingles (Malarkey, IKO, GAF) that can qualify Calgary homeowners for 10–30% insurance discounts

Flat Roofing & EPDM — SBS modified bitumen, TPO, and 60-mil EPDM rubber membrane systems rated flexible down to -45°C for chinook freeze-thaw cycles

Skylight Repair — Velux and Columbia repair, IGU replacement, and reflashing

Attic Rain — the Calgary-specific chinook condensation problem that mimics a roof leak, addressed at the cause: ventilation, bath fans, and vapour barriers

Straight answers, written estimates

Top Star provides free, itemized written estimates — materials, labour, disposal, and timeline spelled out line by line, with most quotes delivered within 48 hours. Active leaks receive priority response. The company also tells homeowners when a \$2,000 repair beats a \$20,000 replacement.

Top Star Roofing Inc. is a registered Alberta business (Corporate Access #2026465019) with full liability insurance and WCB coverage.

“

I know what a leak feels like at 2am with kids asleep upstairs. That's why I pick up the phone myself and show up like it's my own house.”

Kristian Lamthi owner & operator of TOP Star Roofing Inc

Service area

Top Star serves all four Calgary quadrants and inner-city neighbourhoods, plus surrounding communities including Airdrie, Chestermere, Okotoks, Cochrane, and High River.
