Portland-based residential remodeling firm posts 348% revenue growth from 2023 to 2025

PORTLAND, OR, UNITED STATES, June 16, 2026 /EINPresswire.com/ -- Amplified Renovations, Corp., a residential design-build remodeling company serving the Portland and Vancouver metro area, was named #26 on the Portland Business Journal's 2026 Fastest Growing Private 100 Companies list. The award was presented at a ceremony on June 4, 2026.

The recognition highlights Amplified Renovations, Corp's 348% revenue growth between 2023 and 2025, representing \$2.2 million over two years. Founded in 2021, the company has grown from a small residential contractor into one of the Portland metro area's most recognized remodeling firms, with projects spanning kitchen and bathroom remodels, full-home renovations, additions, and ADUs across Portland, Vancouver, Lake Oswego, Camas, and surrounding communities.

"I can speak for the entire team when I say we are surprised and humbled by this recognition," said [Scott Lè](#), owner and founder of Amplified Renovations, Corp. "This happened because our clients trusted us, told their friends, and kept coming back."

Lè credits the company's trajectory to a deliberate approach to building a team that looks different from a typical general contractor. "We've invested in people who bring experience in operations, technology, and growth strategy, and paired that with skilled craftsmen and project managers who take pride in the work," Lè said. "The result is a company that runs more like a modern business than a traditional old-school GC, and I think homeowners feel that difference
