

Felix Nikolas Prehn and Goat Academy Review: The Story Behind a 4.6 Trustpilot Rating

25,000 students, nearly 80 million views, a 2,700th video, and a record 14,000 at one free seminar mark a milestone month for the former investment banker.

NY, NY, UNITED STATES, June 12, 2026 /EINPresswire.com/ -- A former investment banker with 25,000 students, nearly 80 million views, and a 4.6 Trustpilot rating just hit his 2,700th published video. [Felix Nikolas Prehn](#) and [Goat Academy](#) are not slowing down.

Why 25,000 Students and Counting Trust One Man to Decode the Stock Market

Felix Nikolas Prehn spent years inside institutional finance. He worked as an investment banker before founding Goat Academy. The question students frequently ask is simple: why would someone with a career in professional markets spend years building a public education platform?

His answer is equally direct. Most people never get access to the frameworks professional traders use. Goat Academy was built to close the gap.

Trustpilot reviewers consistently point to risk management as the single biggest shift in their approach. One reviewer put it plainly: "I had never placed a stop loss or planned exit order prior to entering Goat Academy. Now I never purchase a stock without having both an entrance and an exit plan."

The student experience behind the numbers becomes clearer when the milestones are read together.

A Million People. One Goal. What Schools and Banks Never Taught.

Felix Nikolas Prehn is direct about the gap he wants to fill.

"The stock market is full of risks. The only way to lower the probability of serious losses is to learn the rules and playbooks that Wall Street experts and bankers know, but never share. My goal is to help one million people do exactly that."

“

There is no magic formula or miracle trade. Managing money is a skill like any other. We teach simple, proven investment methods to help people build wealth over time, not save and budget.”

"I am not telling you what to do. I am not a registered financial advisor. The only thing I am registered as is the proud owner of a Golden Retriever named Winston. What I do share is knowledge I gained from Wall Street mentors and years in the markets, so you can make better decisions."
