

Pre-Orders Open June 18: Masters of the Universe (2026 Film) Skeletor Statue

Prime 1 Studio announces a new statue: Skeletor from "Masters of the Universe (2026 Film)." Pre-orders June 18, 2026 (JST).

ASAKUSA, TAITO-KU, TOKYO, JAPAN, June 18, 2026 /EINPresswire.com/ -- Prime 1 Studio is proud to present Skeletor from the film "Masters of the Universe" as part of the Real Elite Masterline series.

Based on his appearance in the film, this 1/3 scale statue captures the leader of the army that invaded Eternia with detailed sculpting and paintwork.

Real Elite Masterline Masters of the Universe (2026 Film) Skeletor

The statue features a blue body finished with muscle-fiber-like textures inspired by Jared Leto's physique and on-screen portrayal of the character. Skeletor's skull-like portrait includes LED illumination in the eyes, while the Havoc Staff and fabric cape with a polystone hood have been recreated with close attention to their appearance in the film.

Display options include two interchangeable left arms: a pointing hand and an open hand. The custom base is inspired by Snake Mountain and features sculpted magma effects and LED illumination within the serpent's mouth.

The Bonus Version also includes a Crowned Hood bonus part, offering an additional display option.

He-Man from the same Real Elite Masterline "Masters of the Universe" series is also currently available for pre-order. Displaying the two statues together allows collectors to recreate the rivalry between the film's hero and villain.
