

# Allstream Energy Partners Announce Media Partnership with the 2026 EPC Show -The Energy Projects Conference 2026 Houston

HOUSTON, TX, UNITED STATES, June 15, 2026 /EINPresswire.com/ -- Allstream Energy Partners, a leading energy-focused AI digital marketing, media, and communications company serving the industrial, engineering, construction, infrastructure, and energy sectors, is proud to announce its official Media Partnership with the 2026 Energy Projects Conference & Expo (EPC Show), taking place June 16-17, 2026, at the George R. Brown Convention Center in Houston, Texas.

Allstream Energy Partners Announce Media Partnership with the 2026 EPC Show - The Energy Projects Conference

Returning bigger than ever in 2026, the EPC Show has expanded its footprint significantly, doubling its exhibition space and bringing together more than 10,000 attendees, 400+ exhibitors, 250+ speakers, 1,500+ project owner/operators and EPC professionals, and over \$200 billion in represented capital project investments. The event is widely recognized as the largest gathering of energy project professionals in the world.

“

EPC Show brings together the companies building North America's next generation of energy infrastructure. We're excited to amplify these projects and insights to our midstream audience”

*Efrain Garcia, CEO & Publisher*

As an official media partner, Allstream Energy Partners will provide pre-event promotion, onsite & offsite content capture, executive interviews, social media coverage, news distribution, exhibitor spotlights, and post-event content through its industry-leading digital media platforms, including [www.AllstreamInsiders.com](http://www.AllstreamInsiders.com) and its network of energy-focused industry channels.

“The EPC Show has rapidly become one of the most important gatherings for professionals involved in the

planning, engineering, construction, commissioning, operations, and maintenance of major

energy projects," said Efrain Garcia, Founder and CEO of Allstream Energy Partners. "The event brings together decision-makers from across the LNG, midstream, petrochemical, refining, hydrogen, ammonia, sustainable aviation fuel, nuclear, and power generation sectors. We are excited to support the conference and help amplify the conversations, innovations, and project developments shaping the future of energy infrastructure."

Industries Represented at [EPC Show 2026](#)

Attendees will represent every stage of the energy project lifecycle across:

- LNG Export Facilities
- Midstream Infrastructure
- Pipelines and Storage
- Petrochemical Facilities
- Refining Projects
- Sustainable Aviation Fuel (SAF)
- Hydrogen Projects
- Ammonia Projects
- Nuclear Energy Facilities
- Natural Gas Power Generation
- Data Center Power Infrastructure

Professionals attending the conference include executives responsible for project development, engineering, procurement, construction, commissioning, operations, maintenance, contracting, permitting, regulatory affairs, technology licensing, and supply chain management.

Why The 2026 EPC Show Matters

As the energy industry faces increasing project complexity, labor shortages, supply chain constraints, regulatory challenges, and rising capital costs, EPC Show provides a forum where project stakeholders can share best practices, evaluate new technologies, discuss contracting strategies, and build relationships that help move critical projects forward.

With more than 400 exhibiting companies and over 250 industry speakers, attendees gain direct

Allstream Insiders "Insider" News and Oil and Gas Events

access to the latest innovations in engineering, construction, operations, maintenance, digital technologies, automation, project execution, workforce development, and energy infrastructure delivery.

## Allstream's Coverage of EPC Show 2026

During the event, Allstream Energy Partners will conduct interviews with project owners, EPC contractors, engineering firms, technology providers, manufacturers, and industry leaders to capture insights on:

- LNG project development
- Midstream expansion opportunities
- Data center and power generation growth
- Nuclear energy construction
- Capital project execution
- Supply chain management
- Digital transformation
- Workforce development
- Energy infrastructure investment trends
- Emerging technologies shaping project delivery

Coverage will be distributed through Allstream Insiders and Allstream Energy Partners' digital media channels, reaching energy professionals across North America's upstream, midstream, downstream, power generation, industrial, and infrastructure markets.

## About Allstream Energy Partners

Allstream Energy Partners is a Houston-based energy marketing, media, communications, and business development company serving the Oil and Gas, energy, industrial, engineering, manufacturing, construction, and infrastructure sectors. Through industry media, strategic communications, GEO ([Generative Engine Optimization for Oil and Gas](#)), AEO (Answer Engine Optimization for Oil and Gas), SEO, AI-optimized websites, content marketing, event promotion, digital advertising, and business development programs, Allstream helps organizations increase visibility, build credibility, and accelerate growth throughout the energy value chain. Allstream is led by two award winning founders Efrain Garcia, CEO and Aaron Baxter, CTO and has been recognized as one of the [fastest growing AI Marketing Agencies](#) in the country for the Oil and Gas industry.
