

WebDaddy Pro Launches WebDaddy Pro Partners, a Global Agency Program Built on Delegated Access Hosting

New Partner Program gives agencies worldwide a delegated access hosting platform for building, managing, and maintaining client websites.

MCALLEN, TX, UNITED STATES, June 17, 2026 /EINPresswire.com/ -- [WebDaddy Pro](#) today announced the launch of the [WebDaddy Pro Partners Program](#), a [delegated access hosting](#) platform designed specifically for digital agencies, web designers, developers, and marketing firms that manage websites for clients. The program combines website hosting, delegated user access, DNS management, business email hosting, website deployment tools, and agency commissions within a single platform.

WebDaddy Pro Partners logo, representing the global delegated access hosting platform for agencies.

WebDaddy Pro Partners is a delegated access hosting platform for agencies. Unlike traditional reseller hosting, clients retain ownership of their hosting accounts and domains while agencies receive delegated administrative access to build, manage, and maintain websites without shared passwords.

The WebDaddy Pro Partners Program is built around a delegated access hosting model, allowing agencies to manage client websites while clients retain full ownership of their hosting accounts. This approach eliminates shared passwords, improves security, and simplifies long-term website management for both agencies and clients.

"Agencies want a hosting platform that supports their workflow without forcing them into reseller structures or shared credentials," said Theodore Carpenter, President of WebDaddy Pro. "WebDaddy Pro Partners gives agencies worldwide a secure, flexible, and client-owned hosting environment built for modern website operations."

agencies that want clients to retain ownership of their hosting accounts and domains, while still giving agencies the access they need to build and maintain websites.

What Is Delegated-Access Hosting?

Delegated-access hosting is a website management model where clients maintain ownership of their hosting accounts and domains while granting agencies controlled administrative access to build, manage, and maintain websites — without sharing passwords. WebDaddy Pro Partners is built entirely around this delegated-access hosting model.

HOW DELEGATED-ACCESS HOSTING DIFFERS FROM

TRADITIONAL AGENCY HOSTING

Traditional agency hosting often relies on shared credentials, reseller hosting structures, or centralized account ownership. Delegated-access hosting allows clients to keep full ownership of their hosting accounts and domains while agencies receive delegated administrative access.

This improves:

- security
- transparency
- client trust
- long-term account stability

WebDaddy Pro Partners is among the first hosting platforms to build a full partner ecosystem around delegated-access hosting.

GLOBAL INFRASTRUCTURE BUILT FOR AGENCIES EVERYWHERE

WebDaddy Pro’s hosting environment was originally engineered in the Rio Grande Valley, a region where uptime and stability are mission-critical. That same infrastructure now powers agencies across the United States and internationally, providing global availability, consistent performance, and a unified workflow for website management.

ALL BUILD METHODS INCLUDED — NO UPSELLS

Every WebDaddy Pro hosting account includes all available build methods:

- WebDaddy Aila
- AI Website Generator
- WordPress
- Laravel
- Node.js
- Git Deploy

- Upload Files
- Blank Website
- Import a Site
- .NET Site
- Mail Hosting

Agencies can deploy WordPress websites, Laravel applications, Node.js projects, static websites, AI-generated websites, .NET sites, or custom code environments from a single hosting dashboard.

ALL-INCLUSIVE HOSTING DESIGNED FOR CLIENT SUCCESS

WebDaddy Pro's monthly Pro Hosting plan includes:

- Unlimited disk space
- Unlimited bandwidth
- 100 mailboxes
- Unlimited databases
- 2 websites
- Wildcard SSL
- Continuous data protection
- On-demand backup & restore
- Advanced Web Application Firewall
- Malware scanning
- DDoS protection
- Real-time threat intelligence
- Dedicated account manager
- 24/7 response support

With predictable pricing and no renewal spikes, agencies can build stable, profitable packages for their clients.

PARTNER COMMISSIONS INCLUDED

WebDaddy Pro Partners Program includes a commission structure designed for agencies that onboard clients to delegated-access hosting:

- \$10 for 1-year hosting signups
- \$25 for 3-year hosting signups
- \$40 for 5-year hosting signups
- \$2-\$5 for multi-year domains
- 10% on paid migrations
- 5% on DFY website builds

These are one-time commissions, giving agencies a simple way to earn additional revenue when clients activate hosting or related services through the WebDaddy Pro Partners Program.

COMMON AGENCY USE CASES

WebDaddy Pro Partners Program supports:

- Website design agencies
- Marketing agencies
- SEO agencies
- WordPress developers
- Freelance web designers
- Website maintenance companies

WebDaddy Pro Partners supports the full agency lifecycle, including website design, deployment, maintenance, migrations, hosting, DNS management, email hosting, and long-term client support.

FREQUENTLY ASKED QUESTIONS

What is WebDaddy Pro Partners?

WebDaddy Pro Partners is a delegated-access hosting platform designed for agencies, developers, designers, and marketing firms.

How is it different from reseller hosting?

Clients own their hosting accounts while agencies receive delegated administrative access.

Can agencies manage websites without passwords?

Yes. Delegated access eliminates the need for shared credentials.

Does WebDaddy Pro include email hosting?

Yes. Every hosting account includes business email hosting, DNS management, SSL, and deployment tools.
