industry is a billion-dollar industry and according to the Professional Background Screening Association (PBSA) and the Society for Human Resource Management (SHRM) more than 92% of businesses conduct some form of background checks. As the industry has grown, so has the need for both outsourced background screening professionals and those who conduct background checks internally to stay up-to-date with industry developments.

For more than 20 years, as one of the most trusted and widely used resources for background screening professionals worldwide, PreemploymentDirectory.com

has helped background screening professionals, talent acquisition teams, and hiring professionals access news and information to help them continuously improve their hiring processes.

PreemploymentDirectory.com has unmatched reach:

- The largest global directory of providers and vendors dedicated exclusively to background screening,

These reports also help reporters who are writing stories about background screening to have current content.
