Winter Improvements Underway

Brushing and Glading - building off last year's successful program, skiers and riders will see improvements to more lower and mid-mountain terrain as the team and machines get after it this summer.

Snowcat fleet getting upgraded - We have purchased a brand-new Prinoth Bison S and are also upgrading our fleet by replacing one of our existing free-grooming machines. These additions will greatly improve the reliability and consistency of our nightly grooming operations. Also arriving this winter will be a Prinoth Husky, a smaller machine that will allow us to regularly groom the Milly Goat Traverse out to Super Bowl.

“

One of North America's top adventure ski area's is unleashing new experiences, major events and winter upgrades. This summer we challenge you to try one of the coolest Via Ferrata's in North America.”

And of course, the big news - the new Pioneer Express lift coming in 2027-28. Project work is now underway with the team finalizing the construction plan. The old Pioneer chair will be decommissioned after this coming winter season. Construction of the new lift will really kick off in Spring

2027, with installation planned for the fall and a target opening day in December. Follow our social media channels for ongoing progress updates.
