*The AI Threat to White-Collar Jobs Is Real – and
AICareerDefense.com Just Gave Workers a Way to Fight
Back.*

SOUTHFIELD, MI, UNITED STATES, June 23, 2026
/EINPresswire.com/ -- The statistics are alarming. The
World Economic Forum projects 92 million workers
could be displaced by AI by 2030. Meanwhile, 37% of
business leaders say they expect to replace human
workers with AI by the end of this year alone. For most
workers, the question is no longer whether AI is
coming for their job – it is when. And yet, the majority
of professionals have no structured plan for how to
respond.

Oxford Hill Partners is changing that with the launch of
www.AICareerDefense.com – a first-of-its-kind platform
that delivers personalized, [12-Month AI Career Defense
Plans](#) to workers across 15 professions, tailored to
their career stage and greatest area of concern.

"WILL AI LIKELY REPLACE MY JOB?" IS THE WRONG
QUESTION

Millions of workers are Googling "Will AI replace my job?" every month. What they find are vague think-pieces advising them to "learn AI" or "develop soft skills" – with little guidance on how to actually start. AI Career Defense was built to answer the right question: What, specifically, should I do right now to protect my career?

"Professionals in every field are walking around scared, and rightfully so," said Yosi Heber, President of Oxford Hill Partners and creator of AI Career Defense. "But fear without a plan is just paralysis. We give workers a precise, quarter-by-quarter roadmap that shows them exactly what to do over the next 12 months. We don't just tell them to prepare – we walk them through
