

New Children's Book Uses a Magical Greenhouse to Introduce Children to the Power of Shared Participation

Clara and the Glass Greenhouse explores how communities can achieve remarkable things when everyone has a chance to contribute.

NEW YORK, NY, UNITED STATES, June 22, 2026 /EINPresswire.com/ -- [Clara and the Glass Greenhouse](#) Shows How Small Contributions Can Build Something Extraordinary

[Clara Stories](#) Publishing announces the release of Clara and the Glass Greenhouse, a heartwarming new children's book that explores participation, stewardship, and shared opportunity through a beautifully imagined seaside adventure.

Clara and the Glass Greenhouse, the newest title in the Clara Stories series, explores participation, stewardship, and shared opportunity through a heartwarming seaside adventure.

In the latest installment of the Clara Stories series, young readers meet Clara as she discovers a magnificent glass greenhouse that has long been admired by the townspeople but enjoyed by only a few. When the future of the greenhouse becomes uncertain, Clara learns that something extraordinary can happen when many people contribute in small but meaningful ways.

Inspired by the modern concept of tokenization, Clara and the Glass Greenhouse transforms a complex idea into a warm and accessible story that children can understand. Rather than focusing on technology, the book explores timeless values such as cooperation, responsibility, inclusion, and caring for something larger than ourselves.

Through gentle storytelling, vibrant illustrations, and memorable characters, the story shows how participation can create opportunities that might otherwise be out of reach. As Clara discovers, something beautiful does not have to belong to only a few people to be cared for and appreciated by many.

Author [Sharon Philbrick](#) created the Clara Stories series to help children explore modern ideas through timeless storytelling.

Children naturally understand sharing, helping, and working together. The Glass Greenhouse shows how small contributions can create opportunities that benefit an entire community.”

Sharon Philbrick

“Children naturally understand sharing, helping, and working together,” says Philbrick. “The Glass Greenhouse takes those familiar values and shows how communities can accomplish remarkable things when everyone has an opportunity to participate.”

Set in Clara’s beloved seaside world alongside Grandma Ada and Max the dog, the story encourages conversations between parents, teachers, and children about belonging, stewardship, responsibility, and creating opportunities for others.

Like other books in the Clara Stories collection, Clara and the Glass Greenhouse uses storytelling to explore an important modern concept through imagination, curiosity, and everyday experiences. The series has become known for presenting thoughtful ideas through warm, accessible narratives that spark meaningful discussions without relying on technical language.

About the Author

Sharon Philbrick is an author with a background in economics and a lifelong interest in helping people understand complex ideas through simple stories. She is the creator of the Clara Stories series, a growing collection of children’s books that explores themes including saving, fairness, technology, critical thinking, and community. Originally from Canada and now based in the Cayman Islands, Philbrick writes stories designed to help children navigate a changing world with curiosity, kindness, and confidence.

About Clara Stories

Clara Stories is a children’s book series for ages 6–9 featuring Clara, Grandma Ada, and Max the dog. Set in a charming seaside town, each story explores meaningful ideas through gentle adventures that encourage conversations about values, responsibility, and the world around us.

Clara and the Glass Greenhouse is now available on Amazon, Barnes & Noble, and other major booksellers.
