

Physical Therapy Services Market to Reach US\$ 111.7 Billion by 2033, Expanding at a CAGR of 5.8%

BRENFORD, LONDON, UNITED KINGDOM, June 22, 2026

/EINPresswire.com/ -- The global [Physical Therapy Services Market](#) is experiencing steady growth as healthcare providers increasingly focus on rehabilitation, mobility enhancement, and non-invasive treatment solutions. Physical therapy services play a crucial role in helping patients recover from injuries, surgeries, neurological conditions, and chronic musculoskeletal disorders. Rising awareness about the benefits of physical rehabilitation and preventive healthcare is driving demand for these services across healthcare settings.

According to Persistence Market Research, the global physical therapy services market is expected to be valued at US\$ 75.3 billion in 2026 and is projected to reach US\$ 111.7 billion by 2033, expanding at a CAGR of 5.8% during the forecast period. Growing incidences of sports injuries, orthopedic conditions, and age-related mobility issues continue to support market expansion. The increasing elderly population worldwide and the growing preference for personalized rehabilitation programs are also contributing to sustained demand.

Key Highlights from the Report

- The Physical Therapy Services Market is projected to grow from US\$ 75.3 billion in 2026 to US\$ 111.7 billion by 2033, registering a CAGR of 5.8%.
- Rising prevalence of musculoskeletal disorders is increasing the need for rehabilitation and recovery services.

- Growing geriatric population is boosting demand for mobility restoration and long-term physical therapy programs.
- Expansion of outpatient rehabilitation centers is improving patient access to treatment.
- Technological advancements in rehabilitation equipment are enhancing treatment effectiveness and patient outcomes.
- Increasing focus on preventive healthcare and injury management continues to create growth opportunities.

Market Segmentation

The Physical Therapy Services Market can be segmented by therapy type, treatment setting, and end-user. Orthopedic physical therapy remains a major segment due to the increasing number of joint disorders, fractures, and sports injuries. Neurological rehabilitation is also witnessing growth as healthcare providers focus on improving outcomes for patients recovering from stroke and other neurological conditions.

Based on treatment settings, outpatient clinics hold a significant share owing to convenience and affordability. Hospitals and rehabilitation centers continue to play a vital role in delivering specialized therapy services, while home-based physical therapy programs are gaining popularity because of personalized care and improved patient comfort.

Regional Insights

North America remains a leading region in the Physical Therapy Services Market due to advanced healthcare infrastructure, strong reimbursement systems, and growing awareness of rehabilitation therapies. The region also benefits from a high prevalence of chronic conditions requiring long-term physical therapy support.

Asia Pacific is emerging as a fast-growing market driven by improving healthcare access, rising healthcare expenditure, and increasing awareness of rehabilitation services. Expanding healthcare facilities and growing aging populations are expected to support regional growth over the coming years.

Market Drivers

The increasing prevalence of musculoskeletal disorders, chronic pain conditions, and sports-related injuries is a key factor driving market growth. Patients are increasingly seeking physical therapy services as a safe and effective alternative to invasive treatment procedures.

Market Restraints

Limited availability of skilled physical therapists in certain regions and the cost of long-term rehabilitation programs can restrict market growth. Variations in reimbursement policies may also impact service utilization rates.

Market Opportunities

Digital rehabilitation platforms, telehealth solutions, and remote patient monitoring technologies are creating new growth opportunities. These innovations help improve patient engagement and expand access to quality rehabilitation services.

Company Insights

Key players operating in the Physical Therapy Services Market include ATI Physical Therapy, Select Medical Holdings Corporation, Encompass Health Corporation, Athletico Physical Therapy, Upstream Rehabilitation, US Physical Therapy, Inc., Amedisys, Inc., Kindred Healthcare, Genesis Rehab Services, and PIVOT Physical Therapy.
