

# Clientron Partners with Parallels to Modernize Digital Workspaces in Asia

*Businesses want to stop using old and costly systems, and Parallels is a great way to reduce the work for IT teams.*

NEW TAIPEI CITY, TAIWAN, June 23, 2026 /EINPresswire.com/ -- Clientron, a premier global provider of smart endpoint solutions, today announced a [strategic partnership](#) with Parallels, a global leader in cross-platform and virtualization solutions. Through this collaboration, Clientron will bring Parallels Workspace solutions, including Parallels RAS (Remote Application Server), Parallels Browser Isolation, and Parallels DaaS, to organizations across Southeast Asia, offering a simple, flexible, and secure alternative for businesses looking to modernize digital workspaces and reduce IT cost and complexity.

The graphic features a woman in a business suit sitting at a desk with a laptop, looking at a tablet. The background is dark blue with white and yellow accents. The Parallels logo is in the top left. The main text reads: "Cut Azure Virtual Desktop setup costs by up to 79%". The Clientron logo is in the bottom right. Below the graphic, the text says: "Boost your Azure Virtual Desktop ROI! Cut setup costs up to 79% via Parallels".

“

Businesses want to stop using old and costly systems, and Parallels is a great way to reduce the work for IT teams.”

*Vivienne Weng, Vice President  
at Clientron*

In today's hybrid work era, IT teams across Southeast Asia are increasingly burdened by "Legacy VDI Platforms" and are increasingly looking for ways to simplify [digital workspace](#) management, reduce operational overhead, and improve cost efficiency. Parallels Workspace solutions address these challenges with streamlined deployment, flexible infrastructure support, and cost-effective application and desktop delivery across hybrid and multi-cloud environments.

"Businesses want to stop using old and costly systems," said Vivienne Weng, Vice President at Clientron. "Parallels is a great way to reduce the work for IT teams. With Clientron's high-performance hardware, we help IT managers in Asia move away from expensive setups to a smarter and easier way to manage their workspaces."

“Many organizations across Southeast Asia are currently seeking solutions to modernize their digital workspace strategies,” said Asif Khan, Country Sales Manager at Parallels. “As a strong mid-market enabler, Parallels helps organizations simplify application and desktop delivery with secure, flexible solutions designed for hybrid and multi-cloud environments - backed by competitive and cost-effective pricing. Together with Clientron, we’re expanding access to these modern workspace solutions across the region.”

#### Key Advantages of Clientron x Parallels:

- \* Cost-Effective Seamless Access: Smoothly run critical apps on Mac, Windows, or Linux platforms while cutting Total Cost of Ownership (TCO).
- \* Deployment Without Complexity: Parallels Workspace Solutions can be deployed in hours with minimal specialized training.
- \* Ultimate IT Flexibility: Support workloads across hybrid, multi-cloud, and on-premises environments, protecting enterprises from vendor lock-in.
- \* Stronger Security: Modern encryption and login technology to keep your data safe with high-class protection while staying fast and smooth.
- \* Localized Southeast Asia Support: Dedicated focus on key Southeast Asian markets, including Malaysia, Thailand, the Philippines, Taiwan, Vietnam, and Indonesia, helping customers and partners access localized expertise, deployment support, and faster regional engagement.

Moving forward, Clientron will continue to expand its footprint in Asia, working closely with channel partners to promote Parallels solutions and help enterprises build ‘Smart Secure Workspaces’ for the future.
