

Surface Disinfection Market Forecast: Strong Growth Amid Increasing Healthcare Hygiene Demand

Liquid disinfectants held the largest share, representing nearly half of the market revenue.

WILMINGTON, DE, UNITED STATES, June 24, 2026 /EINPresswire.com/ --

The global [surface disinfection market](#) has been witnessing steady growth, primarily driven by the rising incidence of hospital-acquired infections (HAIs) and increasing awareness of hygiene and infection prevention across healthcare and non-healthcare settings. Growing healthcare expenditure worldwide further supports market expansion.

According to a report published by Allied Market Research (Wilmington, Delaware), the surface disinfection market was valued at \$2.7 billion in 2022 and is projected to reach \$5.6 billion by 2032, registering a CAGR of 7.4% from 2023 to 2032.

Key Market Drivers, Challenges, and Opportunities:-

The market growth is influenced by several key factors:

Drivers:

- Rising prevalence of hospital-acquired infections
- Increased global healthcare spending
- Expanding use of disinfectants in non-healthcare environments

Restraints:

- Product resistance due to overuse of disinfectants
- Strict regulatory frameworks governing chemical usage and safety

Opportunities:

- Technological advancements in disinfectant production
- Development of eco-friendly and sustainable disinfectant solutions

Market Segmentation Insights:-

By Composition:

- Alcohol-based disinfectants dominated the market in 2022, accounting for nearly one-third of total revenue.
- This segment is expected to maintain its leadership due to fast action, broad-spectrum effectiveness, and residue-free evaporation.

By Type:

- Liquid disinfectants held the largest share, representing nearly half of the market revenue.
- Their versatility, ease of application, and ability to cover large surface areas support continued dominance.

By Application:

- Surface disinfection accounted for nearly two-thirds of total market revenue in 2022.
- High demand is driven by widespread use across medical equipment, countertops, floors, and public infrastructure.

By Region:

- North America led the global market with more than one-third share in 2022.
- The region is expected to retain its dominance through 2032 due to strong healthcare infrastructure and strict infection control standards.

Competitive Landscape:-

Key players in the global surface disinfection market include:

- 3M
- BASF SE
- Ecolab
- LANXESS
