End of an Empire: Just the Funny Parts by Joe Robbins is a collection of political cartoons and commentary exploring modern American culture, politics, and society through humor and satire.

What makes this book stand out is the way it combines cartoon art with commentary. Each piece is more than a joke on a page. Behind the humor is a point of view, a reaction to the world, and an attempt to make sense of the strange, frustrating, and often unbelievable reality of modern life. Some moments are playful, some are biting, and some carry a more serious emotional weight, but all of them are shaped by a clear personal voice.

Readers who enjoy political satire, opinionated humor, and books that challenge the status quo will find plenty here to react to, laugh at, and think about. Joe Robbins does not pretend to be neutral. Instead, he offers a perspective shaped by experience, memory, and a strong sense that too much in the culture has become backward, performative, and disconnected from common sense.
