

Gansu Constar Technology Group Powers Beauty Brands Worldwide with Premium Constar Contact Lens Private Label Solutions

BAIYIN, GANSU, CHINA, June 25, 2026

[/EINPresswire.com/](https://www.einpresswire.com/) -- In the rapidly expanding global beauty and eye fashion market, [Gansu Constar Technology Group](#) is empowering private label brands with premium, regulatory-compliant contact lens solutions. Its flagship Constar contact lens portfolio enables beauty entrepreneurs, distributors, and retailers to launch differentiated products quickly and confidently across international markets. Meeting Surging Demand for Personalized Eye Wear

Consumer interest in colored, natural-

look, and specialty contact lenses continues to grow, driven by social media trends, cosplay culture, and everyday fashion enhancement. Private label programs allow brands to capture this demand without building their own manufacturing infrastructure. Gansu Constar Technology Group, one of China's largest and most certified contact lens manufacturers, delivers scalable [Constar contact lens solutions](#) that combine innovation, quality, and speed.

Unmatched Regulatory Advantage with FDA and CE Dual Certification

What distinguishes Gansu Constar Technology Group is its position as the only Chinese manufacturer holding both FDA and CE certifications simultaneously, alongside ISO 13485 and key regional approvals including TGA (Australia), AKL (Indonesia), SFDA (Saudi Arabia), and more. This comprehensive compliance portfolio opens doors to stringent markets in the United States, European Union, Southeast Asia, Middle East, and beyond.

For private label partners, this means significantly reduced regulatory risks, faster market entry, and complete documentation with every shipment — allowing brands to focus on design, marketing, and sales growth.

Innovation, Scale, and Customization for Private Label Success

With six advanced production facilities across Gansu and Hunan provinces and a monthly

capacity of 15 million lenses, Gansu Constar Technology Group offers an extensive Constar contact lens lineup featuring over 4,000 designs. From natural daily wear and sparkle effects to bold cosplay styles, the portfolio includes premium silicone hydrogel materials, sandwich printing technology for enhanced safety, laser engraving, UV protection, and high oxygen permeability.

Private label clients benefit from flexible OEM/ODM services:

Low MOQ starting at 1,000 pieces

Physical samples in approximately 10 days

Custom patterns, molds, and full branded packaging

End-to-end support from concept to shipment in as little as 55 days

Complementary care products (multi-purpose solutions, eye washes, starter kits)

This comprehensive capability helps beauty brands bring high-quality, trend-forward collections to market efficiently.
