

EaseDone AI Brings Writing, Research, and AI Image Creation Into One Platform

EaseDone AI introduces an affordable, all-in-one platform combining top AI chat, image, and writing tools to simplify workflows and save users money.

SINGAPORE, SINGAPORE, SINGAPORE, June 25, 2026 /EINPresswire.com/ -- As AI becomes a part of our daily lives, whether it's studying, working, writing, or making content, users are facing a new headache. They have to deal with different AI platforms, subscriptions, and workflows.

Although various AI tools have excellent performance, the model of multiple account subscriptions and multiple workflow switches not only increases the cost of use, but also consumes a lot of time.

EaseDone AI aims to make things easier by bringing popular AI models such as GPT 5.5, Gemini 3.5, Nano Banana 2, and creative tools like AI image tool, AI writing tool, and AI chat tools into one place.

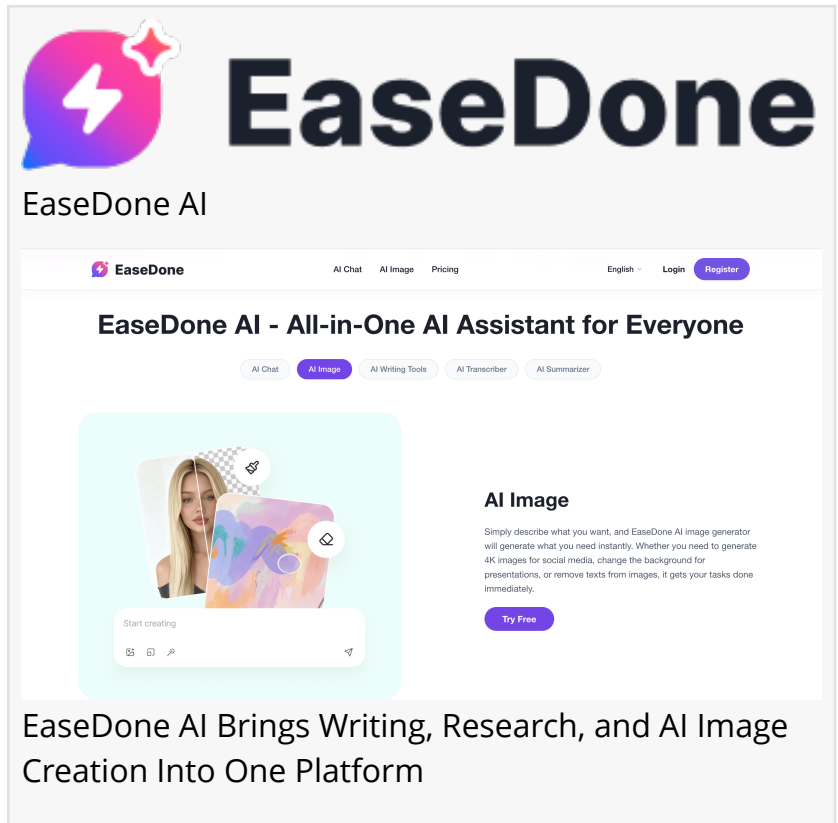

“

EaseDone AI's goal is to create a unified workspace where people can write, study, research, and create. EaseDone AI believes AI should make life simpler, not more fragmented.”
Spokesperson for EaseDone AI

Recently, EaseDone AI said they are growing their all-in-one AI platform with a lower price. This platform helps students, teachers, marketers, researchers, and creators get things done without having to jump between apps all the time.

One Platform, Multiple Leading AI Models

EaseDone AI provides access to many of today's leading AI

models and allows users to use a wide variety of AI features. Users can try it instantly without having to register separate accounts on multiple platforms. The platform supports various features, including:

1. [AI Chat Tool](#): Help students to make a study plan or translate academic papers, help researchers analyze PDFs and summary papers, and help educators interact with AI characters to bring history and literature to life.

2. **AI Image Tools**: Convert text into images with AI instantly. Users can also edit images with AI, including adding, removing, or changing subjects, as well as removing text, backgrounds, and logos.

3. **AI Writing Tools**: Detect if text, image, or file is generated by AI, write various essays such as poems, academic essays, and humanize or grade users' papers.

4. **AI Study Tools**: Help students or teachers to make a study guide, take an online exam test, make a note summary, and so on.
