

Maritime Missile Launch System Market to Surge from USD 280.7 Million in 2020 to USD 458.7 Million by 2030 at 5.8% CAGR

Maritime Missile Launch System Market (2021-2030) Size, Share, Competitive Landscape and Trend Analysis Report, by System, Mode, Launch Type, and Region.

WILMINGTON, DE, UNITED STATES, June 26, 2026 /EINPresswire.com/ -- The global [maritime missile launch system market](#) was pegged at \$280.7 million in 2020, and is expected to reach \$458.7 million by 2030, growing at a CAGR of 5.8% from 2021 to 2030.

Increase in number of territorial conflicts across the world and naval modernization programs have boosted the growth of the global maritime missile launch system market. However, high cost of maritime missile launch systems hinders the market growth. On the contrary, reliable and efficient vertical launch maritime missile launch systems and increase in defense expenditure globally would open new opportunities for the market players in the future.

Download Report (205 Pages PDF with Insights, Charts, Tables, Figures) at <https://www.alliedmarketresearch.com/request-sample/A12509>

Rise in number of territorial conflicts throughout the world and naval modernization programs are expected to drive the market during the forecast period. However, high cost of maritime missile launch systems is anticipated to hamper growth of the market. Moreover, reliable and efficient vertical launch maritime missile launch systems and rise in defense expenditure globally are expected to offer lucrative opportunities in the future.

Covid-19 Scenario:

The Covid-19 pandemic has had a significant impact on the demand for maritime missile launch systems due to the implementation of strict lockdown across the globe.

However, the pandemic presented major challenges for the industry due to disruption in supply chain of raw materials and logistics challenges.

The manufacturing companies were forced to reduce expansion of their businesses and cut down funding of R&D to sustain during the pandemic.
