

Every 3.6 seconds a person dies of hunger. 75% are children. New Technologies, Action Plan will solve world hunger.

The UN estimates that 800 million go to bed hungry.

GREEN BAY, WI, UNITED STATES, June 30, 2026 /EINPresswire.com/ -- Every 3.6 Seconds A Person Dies Of Hunger. 75% Are Children.

[New Technologies](#), This [Action Plan](#) Will Solve World Hunger.

This Action Plan is designed to make Aquaponic and Hydroponic Teaching Systems available in schools and provide online video training in multiple languages to teach students, educators, parents and communities how to grow life-saving fish and plants, and buy or build and maintain home-based, community and commercial feeding systems.

Here's what you can do to help eliminate the suffering.

An infographic with a white background and a black border. The text is arranged in three lines: "Every 3.6 seconds a person dies of hunger" in black, "75%" in large red font in the middle, and "of them are children" in black at the bottom.

Every 3.6 seconds a person dies of hunger. 75% of them are children.

A vulture is seen in the background of this world famous picture waiting for this child to die because he couldn't make it to a feeding station in a famine in Sudan in 1993.

Every 3.6 Seconds Someone Dies Of Starvation. 75% Are Children. New Technologies And This Action Plan Will Solve World Hunger.

IMPORTANT NOTE:

Download this Action Plan at MarketingConsultantsGroup.com/action-plan.

Our Action Plan to solve world hunger is to:

1. Create teaching videos about **Aquaponics** and **Hydroponics**. Translate the videos into multiple languages and post them online. Target teachers, schools and folks who can help teach creating home-based, community or commercial feeding systems worldwide.
2. Provide **Aquaponic/Hydroponic Teaching Systems** to be placed in schools so that students can learn about fish (example tilapia = protein) and plants (example duckweed = food for tilapia) and pass these **Aquaponic/Hydroponic** technologies on to others.
3. Utilize **Coca-Cola, Pepsi-Cola's** worldwide knowledge base about water as a resource so others can learn how to create usable water supplies for their systems.
4. Utilize **Home Depot** and **Lowes** as distributors for the **Teaching Systems** components.
5. Contact high net worth individuals to sponsor **Teaching Systems**. Utilize the financial programs in place like [Kiva.Org](https://www.kiva.org) to finance **Teaching Systems** throughout the world.
