

Neon Parody Labs Expands GTA6Preorder.com With New Vice City Waiting Room Community

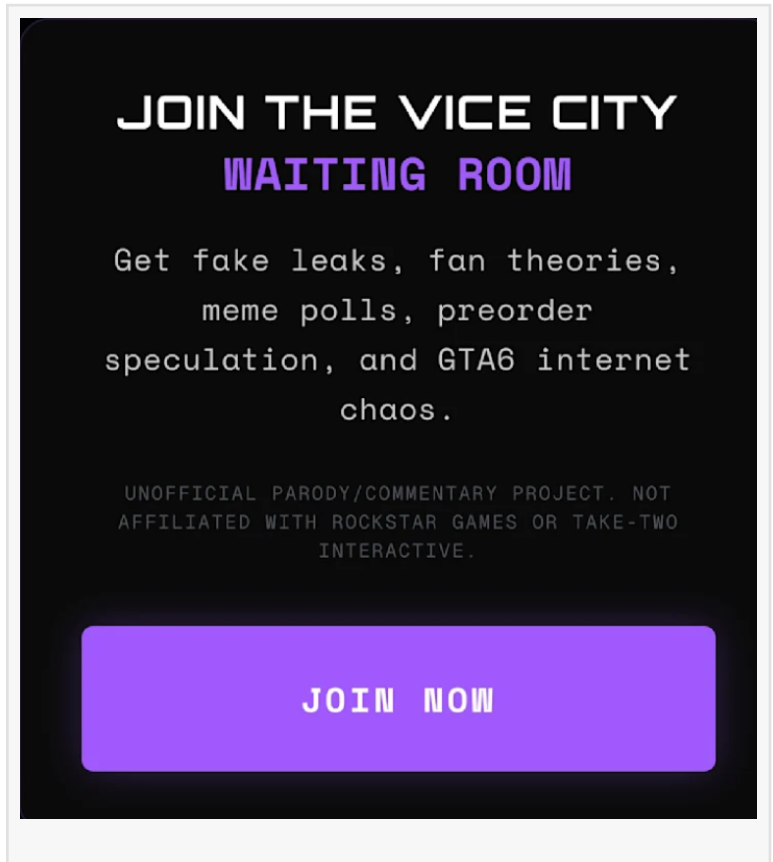

Independent digital media company expands its fan-driven parody platform with new community features documenting GTA VI anticipation culture.

WILMINGTON, DE, UNITED STATES, June 28, 2026 /EINPresswire.com/ -- Neon Parody Labs, an independent digital media company focused on parody, commentary, and interactive internet experiences, today announced the continued expansion of GTA6Preorder.com with new community features centered around the Vice City Waiting Room, a fan-driven destination documenting the internet culture surrounding Grand Theft Auto VI.

The expansion introduces the Vice City Waiting Room community, a live fan countdown, community prediction polls, public participation metrics, fan theory tracking, an AI-powered parody Leak Generator, expanded blog coverage, and new creator resources designed to document one of gaming's largest anticipation cycles.

Neon Parody Labs developed the platform after observing how years of GTA VI speculation evolved into a unique online culture of memes, countdowns, creator content, prediction threads, livestream discussions, and fan communities.

"We recognized that the anticipation itself had become part of the entertainment," said a spokesperson for Neon Parody Labs. "Fans aren't simply waiting for GTA VI anymore—they're creating memes, theories, videos, predictions, and communities around a shared cultural experience. We built the Vice City Waiting Room to document that phenomenon."

The platform also introduces the GTA VI Anticipation Index, a public metrics dashboard that tracks community participation through fan theories, prediction polls, engagement milestones, parody leak generation, and countdown activity.

One of the site's defining themes is:

"Waiting Since 2013."

The phrase has become a familiar in-joke among longtime Grand Theft Auto fans who view the release of Grand Theft Auto V as the unofficial beginning of one of gaming's longest-running anticipation cycles.

"Most gaming communities emerge after a game launches," the spokesperson added. "This one formed years before release. The anticipation became the event."

Fans interested in participating can Join the Vice City Waiting Room here:
