

# Brand Marketing LA Expands Real Estate Media Services with Zillow 3D Home Tours in Los Angeles

LOS ANGELES, CA, UNITED STATES, June 30, 2026 /EINPresswire.com/ -- [Brand Marketing LA](#), a real estate photography company based in Los Angeles, today announced the expansion of its real estate media services with the launch of [Zillow 3D Home Tours](#). The new service helps real estate agents, property managers, apartment communities, and developers create interactive virtual tours that allow buyers and renters to explore properties online before scheduling an in-person visit.

The addition of Zillow 3D Home Tours strengthens Brand Marketing LA's growing range of real estate marketing services. The company also provides professional real estate photography, Matterport 3D tours, aerial drone photography, floor plans, virtual staging, and real estate video production for residential and commercial properties across Los Angeles.

As more buyers and renters begin their property search online, virtual tours have become an important part of real estate marketing. They give people a better understanding of a property's layout, room size, and flow before they visit in person. This helps buyers make more informed decisions while helping real estate professionals attract more qualified leads.

With Zillow 3D Home Tours, visitors can move through a property room by room using an interactive virtual experience. The service makes listings more engaging and gives potential buyers and renters greater confidence as they explore a property online.

"Our goal has always been to help our clients showcase their properties through high-quality visual marketing," said Keith Brennan, Founder of Brand Marketing LA. "Adding Zillow 3D Home Tours gives our clients another effective way to present their listings online and create a better viewing experience for buyers and renters. As the real estate market continues to evolve, we

remain committed to providing modern visual marketing solutions that help our clients stand out."

The new service is available throughout the Greater Los Angeles area and is designed for:

- Residential real estate agents
- Luxury real estate professionals
- Apartment communities
- Property management companies
- Commercial real estate firms
- Home builders and developers

Every Zillow 3D Home Tour is professionally captured to provide accurate room-to-room navigation and a smooth viewing experience. Clients can also combine the service with Brand Marketing LA's professional property photography, drone photography, floor plans, virtual staging, and video production to create complete marketing packages for their listings.

The launch reflects Brand Marketing LA's continued commitment to helping real estate professionals market properties more effectively. By offering multiple real estate media services under one roof, the company provides clients with a simple way to create consistent, high-quality marketing content for every listing.

In today's competitive real estate market, professional photography and virtual tours are no longer optional for many listings. Buyers expect to see detailed visuals before they schedule a showing. High-quality photos and interactive tours help properties attract more attention online and give buyers the information they need to move forward with confidence.

Brand Marketing LA serves residential real estate agents, commercial brokers, apartment communities, leasing teams, property managers, and developers throughout Los Angeles. The company continues to invest in new technology and real estate media services that help clients market properties more effectively and reach more potential buyers and renters.
