“Seattle is one of the country's most pet-friendly regions and home to one of the West Coast's busiest international airports, yet many families still struggle to find pet care they fully trust when they travel,” said Noble Pet Resort founder Saq Nadeem, a pet hospitality entrepreneur with two decades of experience building and operating some of the country's most successful

Cats enjoy private bungalows thoughtfully designed for feline comfort, featuring quiet spaces, opportunities for vertical exploration and environments that allow them to settle in at their own pace. Select accommodations can even host dogs and cats from the same household together.

Expansive indoor and outdoor play areas, complete with splash pools and other enrichment features, provide opportunities for exercise, exploration and socialization throughout the day. Personalized playgroups, one-on-one experiences and structured daily routines are tailored to each pet's needs and supervised by trained caregivers, creating an environment where they remain active, engaged and comfortable while their families are away.

Noble offers specialized programs tailored to different life stages and individual needs. For example, the Puppy Play Program focuses on socialization and confidence-building for young dogs, while the Senior Comfort Program provides customized support for aging animals. Enrichment activities, supervised play and individualized care plans help create a safe and engaging experience for every guest.

Reservations are now available for stays beginning July 9, 2026, and tours are currently being offered ahead of the opening. To celebrate, Noble Pet Resort will host an Open House Weekend, Saturday, July 11 and Sunday, July 12 Noon-4pm, featuring facility tours, special giveaways and opportunities to meet the team, which the public may RSVP at noblepetresort.com/grand-opening/ to attend.
