

Vortex Doors St. Louis Celebrates Local Technicians for SuperTech Day 2026

ST. LOUIS, MO, UNITED STATES, June 29, 2026 /EINPresswire.com/ -- Vortex Doors St. Louis is joining companies across the country in celebrating the [International Door Association's 2026 SuperTech Day](#), a day dedicated to recognizing the skilled professionals who keep commercial facilities operating safely and efficiently.

The Vortex Doors St. Louis team celebrated with a superhero photo competition, suiting up for a chance to win prizes. It was a fun way to recognize the people who respond to service calls, solve challenging field issues, and help customers minimize disruptions to their businesses.

“

Whether it's responding to an emergency service call, troubleshooting a complex issue, or performing proactive maintenance, our team takes pride in helping customers keep their facilities running.”

Trever H.

Since opening earlier this year, the St. Louis team has supported local businesses with a variety of commercial door and loading dock projects, including a recent retail project where technicians replaced an aging edge-of-dock leveler that had been creating ongoing reliability issues. After identifying the right replacement equipment, the team coordinated the installation and completed the project within a week, helping the facility keep daily operations moving safely and efficiently. While much of this work happens behind the scenes, it plays an important role in helping local businesses maintain safe, reliable, and productive facilities.

“SuperTech Day is about recognizing the people who make things happen for our customers every day,” said Trever H., Branch Manager at Vortex Doors St. Louis. “Whether it's responding to an emergency service call, troubleshooting a complex issue, or performing proactive maintenance, our team takes pride in helping customers keep their facilities running.”

Vortex Doors St. Louis provides [commercial and industrial door services](#) throughout the Greater St. Louis area and Eastern Missouri, from commercial doors, gates, and access systems to loading dock and dock leveler services. Customers include warehouses, distribution centers, retail businesses, healthcare facilities, schools, restaurants, parking structures, and manufacturing facilities.
