

A' Smart Living Design Awards 2026 Early Call for Entries Announced

A' Smart Living Design Awards 2026 opens for early entries from smart home designers, IoT innovators and home automation developers worldwide.

COMO, CO, ITALY, June 30, 2026

/EINPresswire.com/ -- Today, A' Design Award & Competition has released its call for entries to A' International Smart Living and Home Automation Design Awards. The A' Smart Living and Home Automation Design Awards are open for entries by Smart Living [Designers](#), Home Automation Experts, Industrial Design Studios, Smart Home Brands, Home Automation Manufacturers, Interior Designers, Architects, Electronic Engineers, Software Developers, User Experience Designers, Interaction Designers, Product Designers, IoT Specialists, AI

Developers, Smart Home Consultants, Smart Living Innovation, Consultancy, Research and Development Companies worldwide. Designs that were intelligently designed within the last 10 years are eligible for participation.

The A' International Smart Living and Home Automation Design Awards is a two-phase competition. The first phase of the competition provides complimentary preliminary participation, Smart Living Designers, Home Automation Experts, Industrial Design Studios, Smart Home Brands, Home Automation Manufacturers, Interior Designers, Architects, Electronic Engineers, Software Developers, User Experience Designers, Interaction Designers, Product Designers, IoT Specialists, AI Developers, Smart Home Consultants, Smart Living Innovation, Consultancy, Research and Development Companies can register at A' Design Awards to submit a work for the Smart Living Awards, and get a preliminary score for their entries. Projects that pass the preliminaries can proceed with nomination, however it shall be noted in advance that

there is a nominal fee for nominating entries for Smart Living Awards consideration.

Beyond recognizing excellence in smart living and home automation design, the A' Smart Living and Home Automation Design Awards contribute to a broader mission of advancing society through connected technologies, intelligent automation and human-centered innovation. Entries are anonymously evaluated through a peer-review process by an influential international jury panel composed of more than 300 academics, journalists, design professionals, museum curators, investors and industry experts. By highlighting solutions that improve convenience, energy efficiency, security and digital connectivity, the competition aims to promote global awareness of good design practices while encouraging designers, engineers and technology companies to create smarter living environments that enhance everyday life.
