

TeachMe TV® Achieves SOC 2 Type II Compliance, Reinforcing Commitment to Student Data Privacy and Security

Independent audit validates security, privacy, confidentiality, & processing integrity controls for TeachMe TV's voice-first, multilingual AI learning platform

NEW YORK CITY, NY, UNITED STATES, July 7, 2026 /EINPresswire.com/ -- [TeachMe TV](#)® Inc., the company behind Empowered 2 Learn today announced that it has successfully achieved SOC 2 Type II compliance following an independent audit conducted by Advantage Partners covering the period from January 2026 through May 2026.

The achievement demonstrates TeachMe TV's continued commitment to protecting customer data and maintaining rigorous operational controls as it serves families, educators, school districts, nonprofits, and enterprise partners.

“

Data privacy and security aren't simply compliance requirements—they're fundamental to our mission of helping children learn with confidence.”

Carolyn Sloan

Developed by the American Institute of Certified Public Accountants (AICPA), SOC 2 is one of the industry's most widely recognized frameworks for evaluating an organization's information security practices. A SOC 2 Type II report independently verifies that an organization's security controls are not only appropriately designed but have operated effectively over an extended period.

The audit evaluated TeachMe TV's controls across four Trust Services Criteria:

The graphic features the TeachMe TV logo at the top, with the tagline "Where Kids Learn to Learn". Below this, it states "SOC 2 Type II Compliant" and "Independently Audited by Advantage Partners". It also lists "Voice-First • Multilingual • AI-Powered" and "Trusted by Families • Educators • School Districts". Two logos are shown: "Advantage Partners SOC 2 COMPLIANT" and "AICPA SOC 2". The website "www.teachmetv.co" is at the bottom right.

TeachMe TV® announced it has achieved SOC 2 Type II compliance following an independent audit by Advantage Partners, reinforcing its commitment to protecting the data of families, educators, school districts, nonprofits, and enterprise partners.

- Security — Protecting systems and data against unauthorized access.
- Confidentiality — Restricting and safeguarding sensitive information.
- Processing Integrity — Ensuring systems process information accurately, completely, and reliably.
- Privacy — Protecting the personal information entrusted to the company by families, educators, and partners.

"Achieving SOC 2 Type II reflects our commitment to earning the trust of every family, educator, and partner who relies on TeachMe TV," said Carolyn Sloan, Chief Executive Officer of TeachMe TV®. "Data privacy and security aren't simply compliance requirements—they're fundamental to our mission of helping children learn with confidence. Independent validation of our security program reinforces that commitment."

Nathaniel Fairfield, Chief Technology Officer, added, "This certification reflects the rigor our engineering and operations teams have built into every layer of our platform. Independent verification confirms that our security controls are not only thoughtfully designed but consistently operating to protect the information entrusted to us."

SOC 2 Type II compliance represents another milestone in TeachMe TV's ongoing investment in secure, responsible educational technology. As the company continues expanding *Empowered 2 Learn*, it remains committed to continuously strengthening its security practices while building innovative learning experiences that help children develop the skills they need to become lifelong learners.

Organizations interested in learning more about TeachMe TV's security program or requesting information regarding its SOC 2 report are encouraged to contact the company's security team.
