

New Addiction Treatment Center Bay Area Rehab Opens in San Ramon, Offering Comprehensive Recovery Services

SAN RAMON, CA, UNITED STATES, June 30, 2026 /EINPresswire.com/ -- [Bay Area Rehab](#), a new addiction treatment center in San Ramon, California, will open on July 1, 2026. The facility is dedicated to providing compassionate, evidence-based care for individuals seeking recovery from substance use disorders in a safe and supportive environment.

Bay Area Rehab will offer medically supervised detoxification and inpatient treatment services designed to help clients begin their recovery journey with comprehensive clinical support. The treatment center's experienced medical and behavioral health professionals will work closely with each client to develop individualized treatment plans that address their unique needs.

Recognizing that addiction often occurs alongside mental health conditions, Bay Area Rehab specializes in treating individuals with dual diagnoses, providing integrated care for co-occurring disorders such as anxiety, depression, and post-traumatic stress disorder (PTSD). By addressing both substance use and mental health simultaneously, the program aims to support long-term recovery and overall well-being.

Family involvement is a cornerstone of the treatment philosophy at Bay Area Rehab. The program will include family education, ongoing communication, and opportunities for loved ones to participate in the recovery process, helping to strengthen relationships and build a supportive foundation for lasting success.

To further enhance the quality of care, Bay Area Rehab will maintain a low client-to-staff ratio, allowing clinicians and support staff to provide more individualized attention, personalized treatment planning, and meaningful therapeutic engagement throughout each client's stay.

Bay Area Rehab Logo

With the launch of their new treatment facility, Bay Area Rehab helps expand access to high-quality addiction treatment for individuals and families throughout the Bay Area.
