

# Mesothelioma Compensation Center Urges Nuclear Power Plant Workers with Mesothelioma or Asbestos-Related Lung Cancer to Call Them for Direct Access to The Nation's Most Experienced Lawyers-Get Better Compensation

WASHINGTON , DC, UNITED STATES, July 7, 2026 /EINPresswire.com/ -- The Mesothelioma Compensation Center is encouraging former nuclear power plant workers diagnosed with mesothelioma or asbestos-related lung cancer, as well as their families, to call them at 866-714-6466 for free assistance connecting with the nation's most experienced mesothelioma and asbestos exposure lung cancer attorneys.

<https://MesotheliomaCompensationCenter.Com>

The organization emphasizes that it is not a law firm, but a national advocacy group that helps individuals find attorneys with extensive experience handling asbestos exposure cases. According to the group, "Selecting an attorney with a proven track record can make a significant difference in the outcome of a compensation claim. We provide instant access to these types of remarkable attorneys.

"We have spent more than 20 years helping people diagnosed with mesothelioma and asbestos-related lung cancer connect with the nation's most experienced legal representation," a

spokesperson for the Mesothelioma Compensation Center said. "Our service is free, carries no obligation, and our goal is to help individuals and families obtain the maximum compensation results."

The organization recommends working directly with attorneys who specialize in asbestos litigation rather than relying solely on internet advertising or referral law firms-that make it sound like they get the best legal representation for people who call them.

The Mesothelioma Compensation Center says it is especially committed to helping individuals who worked in occupations with a higher risk of asbestos exposure, including:

“

"Former power plant workers with asbestos exposure lung cancer or mesothelioma are encouraged to contact the Mesothelioma Compensation Center at 866-714-6466 for a free consultation. Get Compensated!"

*Mesothelioma Compensation Center*

- \* Nuclear and conventional power plant workers
- \* U.S. Navy veterans
- \* Shipyard workers
- \* Oil refinery workers
- \* Public utility employees
- \* Chemical plant workers
- \* Manufacturing workers
- \* Plumbers
- \* Welders
- \* Electricians
- \* Millwrights
- \* Pipefitters
- \* Boiler technicians
- \* Machinists

\* Hydroelectric workers

\* Oil and gas production workers

According to the organization, many workers in these industries were exposed to asbestos decades ago and are only now receiving diagnoses of mesothelioma or asbestos-related lung cancer. Almost no one who develops lung cancer because of asbestos exposure ever gets

compensated because they do not realize the asbestos trust funds were set up for them too.

The Centers for Disease Control and Prevention (CDC) has reported relatively high rates of mesothelioma in several states, including Maine, Massachusetts, California, Connecticut, Maryland, New Jersey, New York, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon.

Former power plant workers or their family members seeking information about legal options and compensation are encouraged to contact the Mesothelioma Compensation Center anytime at 866-714-6466 for a free consultation. <https://MesotheliomaCompensationCenter.Com>
