

Airport Stands Equipment Market to Reach USD 7.22 Billion and Grow at a CAGR of 6.4% by 2030

Airport Stand Equipment Market (2021-2030) Size, Share, Competitive Landscape and Trend Analysis Report, by Stand, by Application, and by Region.

WILMINGTON, DE, UNITED STATES, July 2, 2026 /EINPresswire.com/ -- The global [airport stands equipment market](#) size was valued at \$3.97 billion in 2020, and is projected to reach \$7.22 billion by 2030, registering with a CAGR of 6.4% from 2021 to 2030.

Increase in the global freight and passenger traffic and modernization of airports have boosted the growth of the global airport stand equipment market. However, long shelf life of airport stand equipment hinders the market growth. On the contrary, surge in focus on non-aviation-related revenue would open new opportunities for the market players in the future.

By stands the airport stands equipment market is segregated into engine access, landing gear access, wheel, aircraft entry, cabin interior, and others. The aircraft entry segment accounted for the highest revenue in 2020, owing to increase in demand for airport stands equipment that are used for various applications at the airports.

North America dominates the market, in terms of revenue, followed by Asia-Pacific, Europe, and LAMEA. U.S. dominated the global airport stand equipment market share in North America in 2020, owing to increase in R&D activities, technological developments by key players, and rapid adoption of innovative technologies in making reliable airport stand equipment. Asia-Pacific is expected to grow at a significant rate during the forecast period, owing to rise in air traffic across several Asian nations, for instance, China, India, Japan, and South Korea.

Asia-Pacific is expected to grow at a highest growth rate, due to continuous rise in number of airports in developing economies such as China and India.

Covid-19 scenario:

The Covid-19 pandemic forced several governments to closed their international airports and implement strict regulations regarding import-export. This negatively affected the demand for airport stand equipment.

The pandemic disrupted the supply chain and created shortage of raw materials. Moreover, the pandemic led to closure of manufacturing facilities.
