

ThinkBio.Ai® and Cleveland Clinic Sign Co-Development and Know-How License Agreement for AI-Driven Oncology Solutions

The ThinkBio.Ai® and Cleveland Clinic Co-Development Partnership combines artificial intelligence, clinical expertise and real-world validation

SAN FRANCISCO, CA, UNITED STATES, July 2, 2026 /EINPresswire.com/ -- ThinkBio.Ai®, a knowledge-driven AI company focused on transforming healthcare and drug development, today announced that it has signed a co-development and know-how license agreement with Cleveland Clinic to jointly develop, validate, and advance AI-driven Point-of-Care Oncology Solutions.

ThinkBio.Ai AI-powered platform

The collaboration brings together ThinkBio.Ai®'s expertise in artificial intelligence and biomedical knowledge systems with Cleveland Clinic's global clinical expertise in cancer care. The organizations will work together to create, evaluate, and refine certain next-generation oncology solutions designed to support better patient outcomes and improve patient experience at the point of care.

“

We are pleased to collaborate with Cleveland Clinic, one of the world's leading healthcare organizations, to advance the future of AI-enabled oncology care”

Pradeep Palazhi

“We are pleased to collaborate with Cleveland Clinic, one of the world's leading healthcare organizations, to advance the future of AI-enabled oncology care,” said Pradeep Palazhi, Founder and CEO of ThinkBio.Ai®. “At ThinkBio.Ai®,

we believe that meaningful healthcare innovation happens when advanced technology is developed alongside clinical experts and validated in real-world environments. This agreement represents an important step in our commitment to building trusted partnerships with leading healthcare institutions, translating AI into tangible patient impact, and expanding our healthcare footprint across the United States.”

The collaboration reflects a shared commitment to exploring how artificial intelligence can be responsibly developed and validated to support cancer care. By combining technological expertise with clinical insight, the organizations aim to accelerate the development of solutions that can help improve patient experiences and outcomes throughout the cancer care journey.
