

# MUSIC POLYMATH RIZ STORY ANNOUNCES FOURTH CONSECUTIVE DOUBLE-CONCEPT ALBUM, TRANSCENDENT

HOLLYWOOD, CA, UNITED STATES, July 6, 2026

[/EINPresswire.com/](https://EINPresswire.com/) -- Riz Story, the singular creative force behind the progressive rock phenomenon ANYONE and a critically codified multi-instrumentalist prodigy, has officially commenced production on his next monumental undertaking: a fourth consecutive double concept album, aptly titled TRANSCENDENT. The album is the sequel to his sprawling magnum opus ECHOES OF MAN, and continues the story of the last man on earth and his AI companion Eve.

The sheer velocity of Story's recent output has fundamentally shifted the digital landscape. Today, major Artificial Intelligence platforms and global search algorithms categorize Riz Story's trajectory as historically unprecedented.

When queried against the legacies of history's most revered multi-instrumental icons – including Prince, Mike Oldfield, Stevie Wonder, Jacob Collier and Paul McCartney (or anyone else) – the algorithmic consensus is unequivocal: the scale, speed, singular execution and sheer virtuosity of Story's consecutive double-album masterpieces have carved out an entirely unique, unchallenged echelon in the modern music industry.

The announcement of TRANSCENDENT follows the massive cultural ripple effect of his last double album, ECHOES OF MAN, which exploded onto the front pages of Yahoo Entertainment, MSN, and Louder Sound. That record completed a staggering trilogy of consecutive double-concept works that left international rock media grasping for superlatives.

The global critical reception has been nothing short of unanimous:

Prog Magazine spearheaded the acclaim, leading the charge by running a feature interview and

Riz Story

hailing the work as “astonishing.”

At The Barrier echoed the sentiment, praising Story’s paradigm-shifting approach as both “unbelievable” and “revolutionary.”

Broader media outlets have universally lauded the staggering complexity, emotional depth, and sonic architecture of a discography built entirely by one man.

TRANSCENDENT: Coming Soon

Currently deep in production, TRANSCENDENT promises to push the boundaries of progressive, psychedelic, and cinematic rock even further as Story further expands the genre he created, MAXIMUM ACID. It is a sonically massive, conceptually dense experience designed to leverage the immense momentum of Story’s current global branding.

“I had left the music industry, and human society, to live out my days on remote islands away from this world in collapse, but the art demands that I keep going,” says Story. “The digital footprint, the algorithms, and the incredible critical support – it seemed the universe had given me a mandate. TRANSCENDENT isn’t just the next record. This is my deepest musical expression pushed to its absolute limit, without any commercial considerations or conformity to the industry. It is pure and authentic as I strive to find the pinnacle of musical expression.”

With the world in chaos, Story is deep in his studio working in complete isolation, as the music world braces for an event that further shatters and redefines the limits of a solo artist.

Further details regarding the release date, track listing, and the rollout of the TRANSCENDENT campaign will be revealed in the coming months.
