What Houston and The Woodlands Families Should Know About Divorce

Divorce is one of the most significant legal events a person can go through, and navigating it without knowledgeable legal counsel can have lasting consequences. Texas has its own set of laws governing divorce, and understanding the basics can help families make more informed decisions from the start.

One of the most important things to understand about divorce in Texas is that it is a community property state. This means that most assets and debts acquired during a marriage are considered jointly owned and subject to division. However, “just and right” division does not always mean a 50/50 split. Courts consider a range of factors, including each spouse’s earning capacity, the length of the marriage, and fault in the breakup of the marriage. An experienced attorney can help ensure that the division works in your favor.

Additionally, to file for divorce in Texas, at least one spouse must have lived in the state for [a minimum of six months](#) and in the county where the petition is filed for at least 90 days. Most Texas divorces are also subject to a mandatory 60-day waiting period after filing before a divorce can be finalized, though exceptions may apply in cases involving family violence.
