

Building Automation System Market Industry Leaders, Growth Strategies, and Competitive Insights

*The Business Research Company's
Building Automation System Market
Report 2026 – Market Size, Trends, And
Global Forecast 2026-2035*

LONDON, GREATER LONDON, UNITED
KINGDOM, July 9, 2026

/EINPresswire.com/ -- "The [building automation system market](#) is

dominated by a mix of global automation technology providers and specialized building control solution companies. Market participants are focusing on intelligent energy management systems, cloud-based building monitoring platforms, integrated HVAC and lighting controls, cybersecurity enhancements, and AI-enabled analytics capabilities to strengthen market positioning and address evolving infrastructure requirements. Emphasis on operational efficiency, occupant comfort optimization, remote building accessibility, predictive maintenance capabilities, and compliance with energy performance standards remains central to competitive positioning. Understanding the competitive landscape is essential for stakeholders seeking growth opportunities, technology advancement, and strategic collaborations within the rapidly evolving smart building and facility management ecosystem.

Building Automation System Market Report 2026

Which Market Player Is Leading The Building Automation System Market?

•According to our research, Siemens AG led global sales in 2024 with a 13% market share. The company's smart infrastructure division, which is directly involved in the building automation system market, provides a comprehensive portfolio of building management systems, HVAC automation solutions, fire safety technologies, energy optimization platforms, and digital building services that support operational intelligence, energy efficiency, occupant safety, and infrastructure performance across commercial, industrial, and institutional facilities.

Who Are The Major Players In The Building Automation System Market?

Major companies operating in the building automation system market are Siemens AG, Honeywell International Inc., Johnson Controls Inc., Schneider Electric SE, ABB Ltd., Carrier

Corporation, Daikin Industries Ltd., Mitsubishi Electric Corporation, Cisco Systems Inc., Emerson Electric Co., Trane Technologies, Legrand SA, Lutron Electronics Co. Ltd., Crestron Electronics Inc., Robert Bosch GmbH (Security and Safety Systems), Delta Controls Inc., Distech Controls Inc., Tridium Inc., Automated Logic Corporation, Reliable Controls Corporation, Huawei Technologies Co. Ltd., Control4 Corporation, Hitachi Ltd., General Electric Company (GE Vernova), Leviton Manufacturing Co. Inc., Computrols Inc., Hubbell Inc., Lynxspring Inc., BuildingIQ.

How Concentrated Is The Building Automation System Market?

- The market is moderately fragmented, with the top 10 players accounting for 28% of total market revenue in 2024. This level of concentration reflects moderate technological and infrastructure integration entry barriers, driven by increasing building digitalization requirements, interoperability demands across connected systems, cybersecurity considerations, and the requirement for scalable automation platforms across diverse building environments. Leading players such as Siemens AG, Honeywell International Inc., Johnson Controls Inc., Schneider Electric SE, ABB Ltd., Carrier Corporation, Daikin Industries Ltd., Mitsubishi Electric Corporation, Cisco Systems Inc., and Emerson Electric Co. hold notable market shares through comprehensive automation portfolios, established channel networks, strong system integration capabilities, and continuous innovation in intelligent controls, IoT-enabled platforms, and data-driven building optimization technologies. As demand for smart infrastructure deployment, connected facility operations, energy monitoring capabilities, and intelligent building ecosystems increases, technology advancement, strategic partnerships, and expansion of digital building capabilities are expected to strengthen the competitive positioning of these leading companies in the market.

•Leading companies include:

- oSiemens AG (13%)
- oHoneywell International Inc. (3%)
- oJohnson Controls Inc. (2%)
- oSchneider Electric SE (2%)
- oABB Ltd. (2%)
- oCarrier Corporation (2%)
- oDaikin Industries Ltd. (1%)
- oMitsubishi Electric Corporation (1%)
- oCisco Systems Inc. (1%)
- oEmerson Electric Co. (1%)

Who Are The Key Raw Material Suppliers In The Building Automation System Market?

- Major raw material suppliers in the building automation system market include Texas Instruments Incorporated, Analog Devices Inc., NXP Semiconductors N.V., STMicroelectronics

N.V., Infineon Technologies AG, TE Connectivity Ltd., Belden Inc., Molex LLC, Littelfuse Inc., Sensata Technologies Holding plc, Murata Manufacturing Co. Ltd., TDK Corporation, Amphenol Corporation, Vishay Intertechnology Inc., Omron Corporation, Phoenix Contact GmbH & Co. KG, Eaton Corporation plc, Panduit Corporation, WAGO GmbH & Co. KG, Schaffner Holding AG.

Who Are The Major Wholesalers And Distributors In The Building Automation System Market?

- Major wholesalers and distributors in the building automation system market include Sonepar Group, Rexel S.A., Graybar Electric Company Inc., ADI Global Distribution, Ingram Micro Inc., Arrow Electronics Inc., Avnet Inc., Wesco Anixter, City Electric Supply Holdings Ltd., RS Group plc, DigiKey Electronics, Mouser Electronics Inc., Galco Industrial Electronics Inc., Radwell International Inc., McNaughton-McKay Electric Company, Border States Electric, TD SYNEX Corporation, Crescent Electric Supply Company, Mayer (A Rexel USA Company), Elliott Electric Supply.

Who Are The Major End Users Of The Building Automation System Market?

- Major end users in the building automation system market include Walmart Inc., Amazon.com Inc., Marriott International Inc., Hilton Worldwide Holdings Inc., JPMorgan Chase & Co., Google LLC, Microsoft Corporation, Meta Platforms Inc., Oracle Corporation, Equinix Inc., American Hospital Association member facilities, Target Corporation, Costco Wholesale Corporation, Prologis Inc., CBRE Group Inc., Brookfield Properties, Simon Property Group Inc., Hyatt Hotels Corporation, Accor S.A., InterContinental Hotels Group PLC.

What Are The Major Competitive Trends In The Market?

- AI-enabled building technologies are transforming the building automation system market by enhancing energy optimization, improving operational intelligence, and enabling predictive building management capabilities across smart infrastructure environments.
- Example: In February 2025, Honeywell partnered with the Singapore Economic Development Board (EDB) to establish a center of excellence in Singapore focused on AI and machine learning-driven building technologies.
- Its Honeywell Forge IoT platform integration, predictive analytics capabilities, energy optimization functionalities, and building lifecycle visibility solutions enhance operational efficiency, strengthen sustainability initiatives, and support commercial building decarbonization efforts across multiple building sectors.

Which Strategies Are Companies Adopting To Stay Ahead?

- AI-Driven Building Intelligence Enhancing Operational Efficiency
- Cloud-Based Automation Platforms Strengthening Smart Facility Management
- IoT Integration Advancing Connected Building Infrastructure
- Predictive Maintenance Technologies Improving Asset Performance Optimization
- Cybersecurity Enhancements Strengthening Intelligent Building System Protection

Our 2026 market reports now include enhanced strategic insights through:

- Market attractiveness scoring and analysis
- Total addressable market (TAM) analysis
- Company scoring matrix graphics and tables
- Excel-based forecasting dashboards
- Market hotspots infographics
- Key technologies and future trend analysis
- Updated graphics and tables

Learn More About [The Business Research Company](https://www.thebusinessresearchcompany.com)

The Business Research Company (www.thebusinessresearchcompany.com) is a leading market intelligence firm renowned for its expertise in company, market, and consumer research. We have published over 30,000+ reports across 27 industries and 60+ geographies. Our research is powered by 1,500,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders.

We provide continuous and custom research services, offering a range of specialized packages tailored to your needs, including Market Entry Research Package, Competitor Tracking Package, Supplier & Distributor Package and much more.
