work have expanded across multiple divisions. The new role is designed to ensure prospective clients receive timely, informed responses while existing accounts continue receiving the attention they expect. As the company takes on more commercial and infrastructure work, a dedicated sales presence allows operations and project teams to remain focused on delivery. Grass Plus, Inc. operates across four divisions; Maintenance, Residential Install, Commercial Install, and Industrial, serving clients in Utah, Wyoming, Colorado, and

Idaho. The scope of work ranges from residential irrigation and landscape installation to large-scale hydroseeding, pipeline reclamation, erosion control, and Department of Transportation projects. Managing incoming business across that range of services requires dedicated sales capacity separate from project execution.

Those exploring [landscaping services in Eden, UT](#), now have a direct point of contact within the

Grass Plus, Inc. team. The same support is also available for larger commercial and infrastructure projects throughout the region. The company's approach has always centered on understanding client needs from the first conversation through final installation. The new sales representative role strengthens that commitment by giving each client relationship a more dedicated point of support from the start.

A Message From the Owner

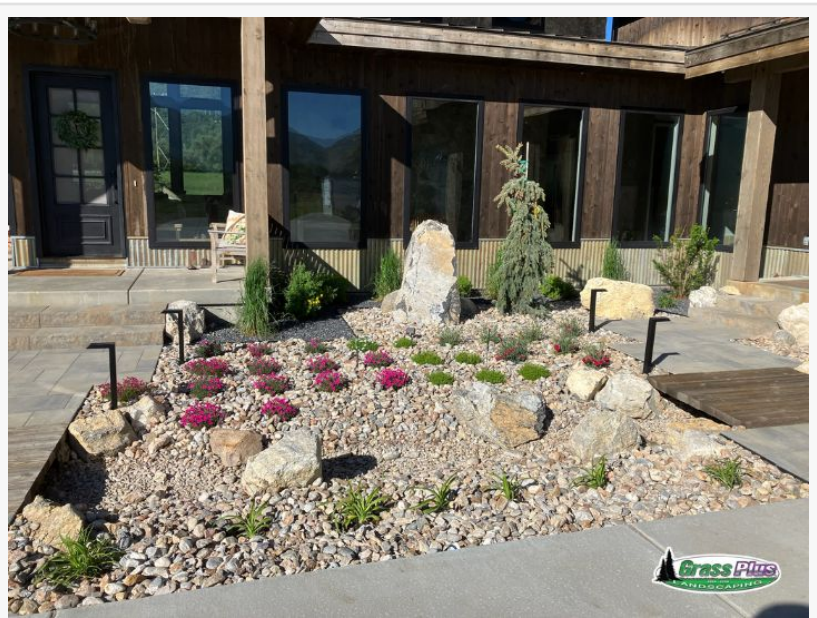

"Growing demand across Utah means we need the right people in place to ensure every client gets the attention and service they deserve. This hire is a direct response to the volume of business we are seeing and a commitment to making sure that growth does not come at the cost of the client experience we have built since 1993," said Blake Buhrley.
