

Pedro's Plumbing Marks 25 Years of Service to Los Angeles County Homeowners

Pedro's Plumbing celebrates 25 years serving LA County homeowners - licensed, Spanish-speaking, water heater specialists offering free estimates.

PICO RIVERA, CA, UNITED STATES, July 10, 2026 /EINPresswire.com/ -- Pedro's Plumbing, a family owned and operated plumbing company based in Pico Rivera, is celebrating 25 years of

service to homeowners across Los Angeles County. Founded and led by master plumber Pedro Grajeda, the company has spent a quarter century building a reputation as a [trusted plumber in LA](#), handling everything from routine drain cleaning to emergency water line repairs for families throughout the region.

“

Twenty-five years later, we still treat every home like it's our own.”

Pedro's Plumbing

Since opening its doors, Pedro's Plumbing has grown mainly through referrals and repeat customers, a track record reflecting the company's focus on honest pricing, licensed workmanship, and dependable communication. The business holds an active California plumbing

contractor license (#1088325) and remains owner-operated, with Pedro personally overseeing much of the day to day work in Pico Rivera, Whittier, Downey, Montebello, and neighboring communities.

What Makes Pedro's Plumbing a Trusted Plumber in LA?

Pedro's Plumbing has earned its reputation through 25 years of licensed, owner operated service, transparent estimates, and consistent availability for both routine and emergency plumbing needs across Los Angeles County. That combination of experience and accessibility is what homeowners most often cite when explaining why they call Pedro's Plumbing first.

Unlike larger regional chains, Pedro's Plumbing operates as a hands on, [local plumber](#), meaning homeowners typically speak directly with the same team member from the first call through the completed repair, a continuity many property owners have come to rely on.

A Quarter Century of Residential and Commercial Plumbing Solutions
Over the past 25 years, Pedro's Plumbing has expanded its service offerings to meet the changing needs of Los Angeles County properties. Core services include leak detection and repair, water heater repair and installation, sewer stoppage and roofer service, water and gas line repair, drain cleaning, trenchless repair, and repiping for both residential and commercial clients. The company also provides tankless water heater installation and general plumbing maintenance, giving homeowners a single resource for both everyday upkeep and larger infrastructure needs.

This breadth of service has become increasingly relevant as many homes across Pico Rivera and surrounding cities age past the point where original plumbing systems were designed to last, creating steady demand for leak detection, sewer line evaluation, and pipe replacement work.

Water Heater Repair and Installation Remain a Core Service

Water heater repair and installation are one of the services Pedro's Plumbing handles most often, reflecting how frequently this single appliance drives a homeowner's need for a plumber. A leaking tank, inconsistent heating, or a unit nearing the end of its lifespan tends to escalate quickly, and homeowners often need same day support to avoid property damage or an extended loss of hot water. A leaking tank, inconsistent heating, or a unit nearing the end of its lifespan tends to escalate quickly, and homeowners often need same day support to avoid property damage or an extended loss of hot water.

Over 25 years, Pedro's Plumbing has installed and repaired both traditional tank and tankless water heaters throughout Pico Rivera and greater Los Angeles County, helping homeowners

Pedro's Plumbing

decide whether a repair is sufficient or a full replacement offers better long term value, particularly for units nearing 10 to 15 years of age. It has remained the company's most consistent service call throughout its history, shaping how the team trains and stocks parts for fast turnaround.

Why Do Homeowners Request a [Free Plumbing Estimate](#) Before Repairs?

A free plumbing estimate lets homeowners understand the full scope and cost of a repair before work begins, removing uncertainty that often accompanies plumbing emergencies. Pedro's Plumbing has offered no obligation estimates throughout its 25 years in business, a practice the company credits with helping build long term trust.

This approach to estimates ties directly into the company's broader philosophy: homeowners should never feel pressured into a repair they do not fully understand. Whether the job is a same day emergency call or a planned upgrade like a water heater replacement, Pedro's Plumbing provides an itemized estimate so customers can make an informed decision.

Serving Los Angeles County for Two and a Half Decades

Pedro's Plumbing's service area spans Pico Rivera and the surrounding Los Angeles County communities, including Whittier, Downey, Montebello, and Santa Fe Springs. As a local plumber, the company has built familiarity with the specific plumbing challenges common to older housing stock in the region, from corroded galvanized pipes to aging sewer lines.

That local focus has allowed Pedro's Plumbing to remain responsive during high demand periods, including the water heater related calls that spike each summer. Pedro's Plumbing has long served the region's Hispanic community as well, with service available in Spanish for homeowners who prefer to communicate in their native language.

Looking Ahead

As Pedro's Plumbing marks this milestone, the company says its priorities for the next chapter remain the same as they were 25 years ago: respond quickly, communicate clearly, and do the job right the first time. Homeowners in Pico Rivera and throughout Los Angeles County can expect the same licensed, owner operated service that has defined the business since it opened.

For homeowners searching for a trusted plumber in LA, Pedro's Plumbing's 25 year milestone reflects a simple formula: consistent quality, transparent pricing, and a genuine commitment to the communities it serves.
