LOS ANGELES, CA, UNITED STATES, July 14, 2026 /EINPresswire.com/ -- [GoDog Sports](#), a leading provider of live streaming, video technology and managed media services for youth, high school and college sports, today announced an exclusive North

American partnership with Enveu, a global provider of enterprise OTT streaming and digital video platform technology. Together, the companies have launched the [GoDog GameStream](#) Enhanced Sports Platform, developed specifically for the North American amateur sports market. Available exclusively through GoDog Sports, the platform delivers a fully managed solution for live streaming, on-demand video, fan engagement and digital revenue generation.

“

Our mission is to make high-quality sports streaming accessible to every organization. Together with Enveu, we've built a platform that engages fans and grows digital revenue.”

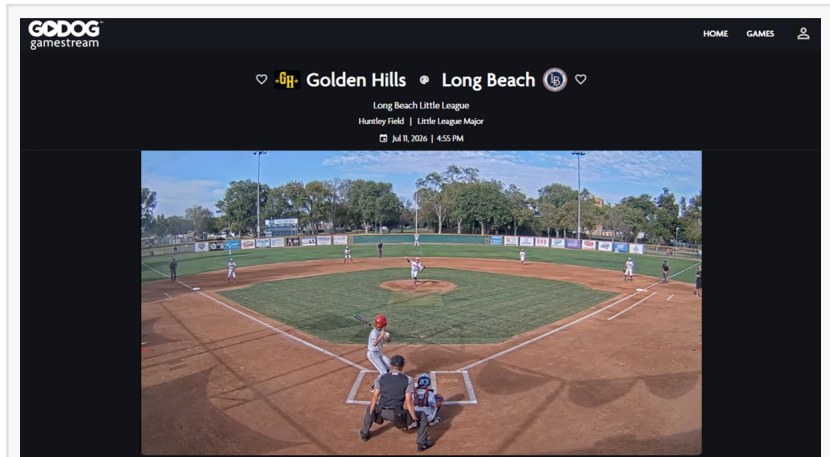

Seth Cummings, CEO, GoDog Sports

Designed for youth leagues, high schools, colleges, athletic conferences, tournament operators and national sports organizations, the platform supports baseball, softball, basketball, volleyball, swimming and many other sports through a single, scalable streaming solution.

A Complete Managed Streaming Solution

Unlike providers that simply sell software or hardware,

GoDog Sports delivers a fully managed service that includes installation, platform deployment, customer onboarding, game scheduling, technical support and ongoing customer success.

GoDog GameStream streaming sports portal.

The platform includes:

- High-definition live streaming
- On-demand viewing and game replay
- Branded streaming portals
- Subscription and pay-per-view capabilities
- Sponsorship and advertising management
- Cloud recording and video archive management
- White-label solutions for leagues, conferences and national organizations
- Secure remote venue monitoring

The platform enables organizations to improve access for athletes, families, alumni and fans while creating recurring revenue opportunities through subscriptions, sponsorships, advertising and premium digital content.

"Our mission has always been to make high-quality sports streaming accessible to organizations of every size," said Seth Cummings, CEO of GoDog Sports. "Enveu has built an outstanding global streaming platform, and by combining that technology with GoDog Sports' experience serving athletic organizations throughout North America, we've created a solution that helps organizations engage their communities, expand viewership and unlock new digital revenue opportunities."

Built for Amateur Athletics

The GoDog Sports Enhanced Sports Platform was designed specifically for the operational needs of youth sports organizations, K-12 schools, colleges, tournament providers and amateur athletic programs.

Whether supporting a single athletic facility or a multi-campus school district, collegiate athletic department, athletic conference or national sports organization, the platform scales to meet the needs of organizations of every size while simplifying the delivery of professional-quality streaming experiences.

Combining Global Technology with Local Expertise

Enveu powers streaming services for media companies, broadcasters and sports organizations worldwide. Working alongside GoDog Sports, Enveu enhanced its platform with features tailored specifically for youth, high school and collegiate athletics throughout North America.

"Working closely with GoDog Sports has enabled us to build features that directly address the needs of schools, leagues and sports organizations," said Shalabh Agarwal, CEO of Enveu.

"Together we've created a flexible platform that combines enterprise-grade streaming technology with the managed services organizations need to successfully launch and grow their digital media programs."

Proven Sports Streaming Experience

GoDog Sports currently supports sports organizations nationwide through its managed streaming platform, providing live streaming, cloud recording, venue monitoring and customer support across youth, high school and collegiate athletics.

The company also powered T-Mobile's FamCam 5G youth baseball streaming initiative, enabling leagues across the United States to broadcast games live to families while demonstrating the growing demand for accessible sports streaming experiences.

Under the partnership, GoDog Sports will serve as the exclusive North American deployment partner for the enhanced platform, managing installation, onboarding, customer support and venue services, while Enveu continues driving platform innovation and rapid feature development.

Together, the companies expect to accelerate the adoption of live sports streaming while helping athletic organizations strengthen fan engagement, expand sponsorship opportunities and build sustainable digital media programs.

About GoDog Sports

GoDog Sports is a nationwide provider of managed live streaming, cloud recording and venue monitoring solutions serving youth sports organizations, high schools, colleges, athletic conferences and national sports organizations throughout North America. The company's fully managed platform combines durable venue technology with installation, customer onboarding, technical support and ongoing customer success, enabling organizations to deliver professional-quality streaming experiences with a single trusted partner.
