The Evaluation Process

Organizations from across the county entered the two-part process to determine the Best Places

This part of the process was worth approximately 20% of the total evaluation. The second part consisted of an employee survey to measure employee experience. This part of the process was worth approximately 80% of the total evaluation. The combined scores determined the top organizations and the final ranking. Workforce Research Group managed the overall registration and survey process in Orange County, analyzed the data, and used its expertise to determine the final ranking.

The ranking of the winning organizations was released via a special section of the Orange County Business Journal's July 13, 2026 issue.
