in Hawaii, Chase Logan delivers a warm, witty, and emotionally satisfying romantic comedy about starting over after divorce, leaning on friendship, and finding love when life feels least predictable. Set between Austin and the tropical beauty of Hawaii, the novel follows three women whose getaway becomes much more than a vacation.

The story follows Vickie, a woman facing the painful end of a decade-long marriage and the loss of the future she thought she had secured. When grief and uncertainty begin to close in, her best friends step in with the kind of support only true friends can offer. Their answer is simple: get Vickie out of Austin and into the sunshine of Waikiki.

What begins as a girls' trip soon turns into something bigger when the women meet three Navy

sailors on shore leave from the USS Ronald Reagan. Together, the six form what they jokingly call the “Six-Pack,” a close-knit group built on banter, beach adventures, emotional honesty, and the unexpected comfort of being surrounded by people who make starting over feel possible.

Unlike traditional romance stories that focus only on one couple, *Six Hearts One Island* gives readers a full ensemble experience. The friendships are just as important as the romances. The laughter carries as much weight as the heartbreak. The island setting becomes more than a backdrop; it becomes the place where old pain loosens its grip and new possibilities begin to take shape.

The novel blends several reader-favorite elements: second-chance romance, women’s friendship, Navy life, tropical travel, emotional recovery, and romantic comedy. From Duke’s and Hanauma Bay to beachfront nights, luau moments, and the charm of Waikiki, the book captures the feeling of a trip that changes everything.

For readers who enjoy stories about love after divorce, strong female friendships, military romance, and travel-inspired escapes, *Six Hearts One Island* offers a heartfelt reminder that an ending does not have to be the final word. Sometimes the life waiting on the other side of heartbreak is bigger, brighter, and funnier than expected.
