2026 Musical Lineup:

Multi-platinum punk rock icons The Offspring bring decades of Southern California punk-rock energy to SEMA Fest. Formed in Garden Grove in 1984, the band is known for their generation-defining hits such as “Self Esteem,” “Come Out and Play,” “The Kids Aren’t Alright,” and “Pretty Fly (For a White Guy).” Widely credited with helping revive

mainstream interest in punk rock during the 1990s, The Offspring has sold more than 45 million records worldwide.

Jimmy Eat World adds its signature anthemic alternative-rock sound to the lineup. The band broke through globally with “The Middle,” which reached No. 1 on Billboard’s Modern Rock Tracks chart and became one of the defining rock songs of the early 2000s.

311 brings its unmistakable blend of rock, reggae, funk, and hip-hop influences to the main stage. The band has released 14 studio albums, sold more than 10 million records in the United States, and remains known for crowd favorites such as “Down,” “Amber,” and “All Mixed Up.”

The Alive rounds out the bill with a fresh California rock sound rooted in surf, skate, and hard-driving live performance. The band cites influences including Black Sabbath, Nirvana, Rush, and Queens of the Stone Age, making them a fitting addition to a lineup built on energy, edge, and attitude.

Featured Experiences:

The evening's adrenaline will be amplified by world-class automotive demos, including drifting demonstrations from OPTIMA and the high-energy Globe of Death.

Supercar Saturdays Florida returns to SEMA Fest with a curated showcase of rare hypercars and exotic vehicles following its debut SEMA Fest appearance in 2025, where it presented an exclusive hypercar and supercar display.
