

Pine Hosting Highlights Dedicated Server Readiness For the Palworld 1.0 Release

The new Palworld update is expected to bring new multiplayer activity as players return to explore new content and creatures

DALLAS, TX, UNITED STATES, July 16, 2026 /EINPresswire.com/ -- With the release of [Palworld 1.0](#), Pine Hosting is preparing for increased demand from players planning to start new multiplayer worlds and return to existing communities following one of the game's largest content updates to date.

The update is expected to introduce more than 20 newly revealed Pals, additional exploration opportunities, and expanded gameplay features, likely encouraging both new and returning players to revisit the game. Early previews have generated significant discussion within the Palworld community, particularly around the newly teased creatures and their potential impact on combat, exploration, and base management.

As major game updates often lead to increased multiplayer activity, many players choose [dedicated servers](#) to create persistent worlds that remain online even when the host is disconnected. Dedicated servers also allow groups to continue building, exploring, and progressing together without relying on a single player's computer to host each session.

Pine Hosting provides dedicated Palworld server hosting designed to support multiplayer worlds of varying sizes. The company's hosting platform includes automated deployment, server management tools, backups, and infrastructure located across Europe, North America, and Australia. The company has also published a [resource outlining the Pals expected in the update](#).

As Palworld 1.0 becomes available, players will have the opportunity to explore new regions, discover additional creatures, and experiment with new multiplayer strategies. The update is expected to mark one of the game's largest content expansions since its original launch, making it a significant milestone for both existing communities and players returning to the game.

About Pine Hosting:

Pine Hosting was founded to simplify game server hosting for users of all experience levels. Driven by a team of dedicated gamers, knowledgeable support staff, and experienced

developers, Pine Hosting stands out for its attention to detail and exceptional customer service. Thanks to its focus on reliability, performance, and feature-rich offerings, the company has quickly become a favorite among first-time server owners and established networks. Pine Hosting provides clients with top-tier hosting solutions powered by high-performance hardware and premium network blends. The intuitive Pine Panel ensures a seamless hosting experience, making it the ideal choice for all hosting needs.
