

ZenaTech Signs Multiple Land Surveying & Geospatial Acquisition Offers in U.S., Canada & Australia

Potential acquisitions expand the global footprint of a leading Drone as a Service business in a market growing over 25% annually

VANCOUVER, BRITISH COLUMBIA,
CANADA, July 16, 2026

/EINPresswire.com/ -- [ZenaTech, Inc.](#) (Nasdaq: ZENA) (FSE: 49Q) (BMV: ZENA) ("ZenaTech"), a technology solution provider specializing in AI (Artificial Intelligence) drone, Drone as a Service (DaaS), enterprise SaaS, and Quantum Computing solutions, announces it has signed new offers to acquire multiple land survey and geospatial services companies located in the US, Canada and Australia. Subject to the closing of these acquisitions, the Company expects them to collectively contribute approximately C\$40 million in revenue over the 12 months following closing. This estimate is based on unaudited financial information provided by the target companies and by management estimates and has not been verified by auditors.

ZenaTech is a [B2i Digital Featured Company](#). See the company's profile at <https://b2idigital.com/zenatech-1>

"These signed offers for acquisition mark a transformational milestone in building one of the world's leading Drone as a Service businesses," said Shaun Passley, Ph.D., ZenaTech CEO. "Beyond the expected addition of C\$40 million in revenue over the first 12 months following closing, these potential acquisitions significantly expand our customer relationships, geographic

NASDAQ: ZENA

ZenaTech signs acquisition offers for multiple land survey and geospatial companies across the U.S., Canada, and Australia, targeting approximately C\$40 million in annual revenue.

reach, and geospatial expertise across three key markets. They create a scalable platform for integrating our AI-powered drone autonomy solutions into established operations, with the goal of accelerating recurring revenue opportunities while strengthening our competitive position. Building on our 640% year-over-year first-quarter revenue growth, we believe this strategy positions ZenaTech for sustained long-term growth as enterprises and governments increasingly adopt drone-enabled services worldwide.”

These prospective transactions advance ZenaTech’s strategy of acquiring established legacy and low-tech businesses, including land surveying, infrastructure and renewable energy inspections, and power washing companies in the U.S. and globally, and converting their traditional or

ZenaTech, Inc.*

manual operations to a Drone as a Service business model. The Drone as a Service (DaaS) model is similar to Software as a Service (SaaS), however instead of delivering software through a subscription, it delivers turnkey drone-powered services and data on a recurring subscription or usage basis. Customers gain access to advanced surveying, inspection, monitoring, precision agriculture, and other drone-enabled capabilities without the upfront capital investment, specialized personnel, equipment maintenance, or regulatory complexity of operating their

own drone fleet.

The global drone services market is valued at approximately US\$32 billion in 2025, according to Fortune Business Insights, and is projected to reach more than US\$261 billion by 2034, a CAGR of over 25%, which reflects the rapid adoption of drone automation across infrastructure inspection, surveying, agriculture, logistics, public safety, and defense applications

Each proposed acquisition remains subject to customary closing conditions, including the completion of due diligence and signed definitive agreements. There can be no assurance that any proposed transaction will be completed. The Company will provide additional details upon the closing of such transactions.

About ZenaTech

ZenaTech, Inc. (Nasdaq: ZENA) (FSE: 49Q) (BMV: ZENA) is a technology company that specializes in AI autonomy drone platforms to transform industrial, government, and defense sectors. Its subsidiaries include drone manufacturing through ZenaDrone, a global Drone as a Service (DaaS) business, and a separate enterprise SaaS division of software brands. The Company is executing an acquisition-led DaaS roll-up strategy to digitize and automate legacy service industries like land surveys and inspections, driving drone-based, scalable, recurring revenue growth. With an operating footprint spanning North America, Europe, the Middle East, and Asia, ZenaTech is advancing AI drones for agriculture and logistics, as well as ISR, cargo, and counter-UAS applications for U.S. defense and NATO allies. The company is investing in next-generation technologies, including drone swarms, quantum computing, and advanced AI autonomy, to capture long-term opportunities in key markets through its R&D initiatives.

About ZenaDrone

ZenaDrone, a subsidiary of ZenaTech, develops and manufactures AI-powered multifunction autonomous drone solutions integrating machine learning, predictive analytics, and advanced computing technologies for government, defense, and industrial applications. This includes multifunctional drones for surveying, inspections, logistics, security, and defense applications. Its product portfolio includes the ZenaDrone 1000 for ISR defense and specialized cargo, the IQ Nano for indoor inventory management and security, the IQ Square for outdoor inspections and maintenance, the IQ Quad for land surveying, and the IQ Aqua for underwater applications. ZenaDrone operates three global manufacturing facilities in Arizona, Dubai, and Taiwan, and is advancing counter-UAS maritime interceptor drones and an integrated defense system.
