

1NCE and Pessl Instruments connect smart farms worldwide

COLOGNE, GERMANY, July 29, 2026
/EINPresswire.com/ -- IoT specialists
[1NCE](#) and [Pessl Instruments](#) help
farmers in 80 countries to connect and
manage thousands of weather
stations
□ Smart farming solution improves
water and fertilizer efficiency
□ Both companies provide critical
components at a 99.97% service
availability

COLOGNE, Germany & WEIZ, Austria
[July 29, 2026] – 1NCE, a company
offering a plug-and-play platform for creating and managing the world's best IoT products, and
Pessl Instruments, a global leader in smart agriculture, announce today the roll-out of the
METOS by Pessl Instruments weather network solution powered by 1NCE. The smart farming
solution provided by Pessl Instruments connects thousands of weather stations and field
sensors through a single platform, providing farmers real-time data of precipitation and soil
moisture, extreme weather forecasting and crop disease risk in more than 80 countries.

The main challenge for the deployment of smart farming solutions is always providing good
coverage in rural areas. Thanks to 1NCE'S global connectivity service available in more than 170
countries, Pessl Instruments can now offer its smart farming solution at global scale with a
99.97% service availability. This consolidates Pessl Instruments as a smart farming powerhouse,
helping customers make more informed irrigation and fertilizer decisions.

"Agriculture is one of the most demanding environments in IoT, remote, global, and unforgiving
when data stops flowing. Our platform is built to keep Pessl Instruments' stations online and
reporting accurately anywhere in the world, turning raw sensor data into forecasts farmers can
trust," - Nicolas Martinez-Fresno, Chief Sales and Marketing Officer, 1NCE

"Our farmers depend on us for a clear picture of their fields, which means our weather stations
have to work everywhere, all the time. With 1NCE, we know we will give them the precise insights

they need to succeed." - Gottfried Pessl, CEO & Founder, Pessl Instruments

About 1NCE

1NCE delivers the fundamental software and connectivity platform for customers to create and manage the world's best intelligent products across 170+ countries. Learn more at www.1NCE.com.

About Pessl Instruments

Founded in 1984 in Weiz, Austria, Pessl Instruments GmbH provides smart agriculture solutions worldwide through its METOS by Pessl Instruments weather stations and FieldClimate platform.
