

University of Saskatchewan Two Environmental Master's Programs Accredited by ECO Canada

CALGARY, ALBERTA, CANADA, July 20, 2026 /EINPresswire.com/ -- CALGARY, AB-[July 20]- ECO Canada is proud to announce that two graduate programs offered through The University of Saskatchewan (USask)'s School of Environment and Sustainability (SENS), Master of Water Security (MWS) and Master of Sustainability (MSs), have received accreditation from ECO Canada through the Canadian Environmental Accreditation Commission (CEAC).

The accreditation recognizes that both programs conform to the National Accreditation Standard (NAS) for Post-secondary Programs aligned with the National Occupational Standard (NOS), demonstrating their commitment to preparing graduates with the skills needed to meet Canada's evolving environmental workforce.

Addressing Critical Water Challenges

The Master of Water Security (M.W.S.) prepares students to tackle some of the most urgent water issues facing communities, industries, and ecosystems today, including drought, flooding, pollution, climate change, and water resource management.

Solutions Program

Canada 

Funded in part by the Government of Canada's
Sectoral Workforce Solutions Program

The Master of Sustainability (M.Ss.) equips students to lead sustainable development initiatives and address environmental, social, and economic challenges through systems thinking, innovation, and cross-sector collaboration.

Why Choose SENS Graduate Programs?

- Gain the skills needed for in-demand careers in sustainability, water management, and environmental governance
- Interdisciplinary non-thesis graduate programs that combine science, policy, and practical skills
- Course-and project-based capstone options that connect learners with industry partners on real-world projects
- Flexible delivery designed to fit working professionals' lives, including 100% online, in-person, or hybrid
- Unique programs designed in collaboration with world-class institutes and globally recognized leaders

This announcement has been funded in part by the Government of Canada's Sectoral Workforce Solutions Program.
