Cambay Solutions BC Webinar 22nd July

The session will be hosted by Mark Sengstock, D365 Business Central Practice Director at Cambay Solutions. Attendees will see live demonstrations of Copilot and AI capabilities built directly into [Dynamics 365 Business Central](#), including automated bank reconciliation, cash flow forecasting, intelligent reporting, and custom AI agents built with Copilot Studio.

"Finance and operations teams are spending too much time on manual work and not enough time on strategic analysis," said Mark Sengstock. "Copilot in Business Central changes that. It automates repetitive tasks, surfaces insights, and helps teams make faster, better decisions. Our goal with this webinar is to show exactly how it works and where to start."

The webinar is designed for CFOs, Controllers, Finance Managers, COOs, Operations Managers, ERP Managers, IT Directors, and business owners. It will focus on practical applications rather than theoretical concepts, with live demonstrations of AI in action within Business Central.

Key topics to be covered include:

- Copilot Bank Reconciliation
- Intelligent Cash Flow Forecasting
- Real-Time Excel Reporting

- Automated Journal Entries and Approvals
- Business Central Sales Order Agent
- Business Central Payables Agent
- Copilot Content Generation
- Custom Copilot Studio Agents for Business Central
- Live Q&A

Attendees will also have the opportunity to schedule a complimentary AI Readiness Assessment and personalized Business Central Copilot demonstration following the session.

The webinar is part of Cambay Solutions' ongoing commitment to helping organizations maximize their Microsoft investment — across Dynamics 365 Business Central, Microsoft 365 Copilot, Power Platform, and Azure AI — and leverage AI for measurable business outcomes.
