

Diamond & Gold Medical Aesthetics Introduces Glacē™: A Gentle, Skin-Purifying Ritual for a Grounding, Glowing Complexion

FIVE TOWNS, NY, UNITED STATES, July 20, 2026 /EINPresswire.com/ -- [Diamond & Gold Medical Aesthetics](#), a leading provider of advanced aesthetics and skincare solutions in Five Towns is proud to announce the launch of Glacē™ treatment, a gentle, multi-step [hydrodermabrasion](#) experience that combines science and self-care to purify, hydrate, and illuminate the skin. Designed to deliver both visible results and a moment of mindful restoration, the [Glacē treatment](#) transforms skincare into a grounding ritual that leaves the skin glowing, refreshed, and renewed.

More than a facial, the Glacē treatment integrates four proven steps to renew and refine the skin. It begins with advanced hydrodermabrasion to exfoliate and remove impurities, followed by a targeted serum infusion that delivers hydration and nutrients where skin needs them most. A cupping massage supports lymphatic drainage and facial contouring, and LED technology completes the experience by calming the skin and enhancing post-treatment radiance. Each treatment is performed with sterile, single-use diamond tips and naturally derived serums for a hygienic, gentle, and effective result across all skin types.

“The Glacē treatment is where self-care meets skin care,” says Jameliah Wright. “Our clients love that it’s gentle, hygienic, and delivers a visible glow after just one session. It’s more than a treatment; it’s a moment to recharge and reconnect with yourself.”
