

# Super Brush LLC to Showcase New CE-Marked Sterile Collection Swab Line at ADLM 2026 Clinical Lab Expo – Booth #817

*Super Brush LLC, a leading U.S. manufacturer is pleased to announce its participation in the ADLM 2026 Annual Scientific Meeting & Clinical Lab Expo*

SPRINGFIELD, MA, UNITED STATES, July 20, 2026 /EINPresswire.com/ -- Super Brush LLC, a leading U.S. manufacturer of precision foam swabs and applicators for more than 65 years, is pleased to announce its participation in the ADLM 2026 Annual Scientific Meeting & Clinical Lab Expo, taking place July 26–30, 2026, at the Anaheim Convention Center in Anaheim, California. Visitors are invited to Booth #817 to discover Super Brush's complete portfolio of precision foam swab solutions and learn about the company's newly CE-marked Sterile Collection Swab line, designed to support diagnostic laboratories, OEMs, and medical device manufacturers worldwide.

Laboratory and medical device manufacturers continue to demand precision, consistency, and dependable supply”

*Diane Henry, Director of Sales*

Hosted by the Association for Diagnostics & Laboratory Medicine (ADLM), the Clinical Lab Expo is one of the world's premier events for laboratory medicine professionals, bringing together scientists, laboratory leaders, manufacturers, and healthcare innovators to showcase the latest advancements in diagnostics, clinical testing, and laboratory technology.

At Booth #817, Super Brush will feature a broad range of

foam swab solutions for laboratory and medical applications, including:

Super Brush LLC to Showcase New CE-Marked Sterile Collection Swab Line at ADLM 2026 Clinical Lab Expo – Booth #817

- CE-marked sterile collection swabs for specimen collection
- Swabs for diagnostic testing kits
- Swabs for medical device manufacturing and assembly
- Swabs for inclusion in medical kits and surgical trays
- Swabs for precision cleaning of laboratory instruments, optics, printers, and sensitive electronic equipment
- Custom-engineered foam swabs designed for specialized laboratory and medical applications

With more than 3,000 standard foam swab configurations and complete in-house engineering and manufacturing capabilities, Super Brush partners with customers around the world to develop custom foam applicators that meet demanding performance, regulatory, and production requirements.

"Laboratory and medical device manufacturers continue to demand precision, consistency, and dependable supply," said Diane Henry, Director of Sales at Super Brush LLC. "Our ability to design, prototype, and manufacture custom foam swabs entirely in our U.S. facility allows us to respond quickly to customer needs while maintaining the exceptional quality standards our customers expect. We are especially excited to introduce our newly CE-marked Sterile Collection Swab line at ADLM 2026, allowing us to better support customers throughout Europe with high-quality, regulatory-compliant specimen collection solutions."

One of the highlights at ADLM 2026 will be Super Brush's newly CE-marked Sterile Collection Swab line. These sterile foam swabs are individually packaged and electron beam sterilized to provide dependable performance for specimen collection. Available in multiple configurations for oral, anterior nasal, and oropharyngeal specimen collection, the product line is offered in both standard and custom designs to meet the unique needs of diagnostic and medical device manufacturers.

Super Brush, as an ISO 13485:2016 certified and FDA registered Medical Device Manufacturer continues to invest in innovative foam swab technology that helps customers improve product
