

SEO Image Launches New SEO & AI Audit Tool With AI Search Optimization Analysis

New online auditing tool evaluates traditional SEO, technical performance, and website readiness for AI-driven search results.

NEW YORK, NY, UNITED STATES, July 21, 2026 /EINPresswire.com/ -- [SEO Image](https://www.seoimage.com/), a New York-based search engine optimization and online reputation management agency, has launched a new website auditing tool designed to evaluate both traditional SEO performance and optimization for AI-powered search experiences.

The SEO & AI Audit analyzes websites for technical SEO issues, on-page optimization, search visibility factors, and elements that may affect how content is understood and referenced by AI search platforms.

Unlike conventional SEO audit tools that focus primarily on standard search engine rankings, the new platform also evaluates factors connected to AI search optimization. The audit provides clear scores, identifies potential weaknesses, and offers prioritized recommendations website owners can use to improve their pages.

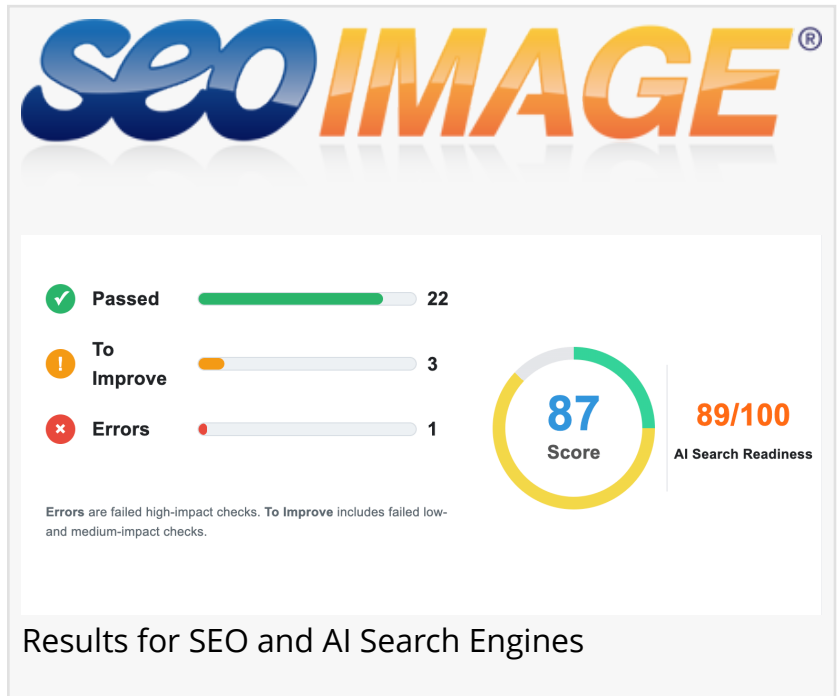

“

The search landscape is changing, and so are the tools that shape our businesses. It's no longer an SEO tool; it's a modern tool for how people search now.”

Alan Rabinowitz

“Search optimization is no longer limited to traditional rankings,” said Alan Rabinowitz, CEO of SEO Image. “Businesses also need to understand whether their websites clearly communicate expertise, relevance, and

authority to AI-driven search systems. We developed this tool to make that evaluation more accessible.”

The audit reviews key areas including:

AI search optimization and content clarity

Technical and on-page SEO

Website structure and accessibility

Optimization scores and prioritized recommendations

The tool is intended for businesses, marketers, website owners, and SEO professionals seeking a clearer picture of how a website performs across both conventional and emerging search environments.

The [SEO & AI Audit Tool](https://seoimage.com/seo-tools/) is available at <https://seoimage.com/seo-tools/>
