Resort-style senior living community on LA's Westside earns national recognition for its holistic, wellness-focused approach to senior care.

PACIFIC PALISADES, CA, UNITED STATES, July 21, 2026

/EINPresswire.com/ -- Ciela Senior Living, a modern, resort-style senior living community in the foothills of the Santa Monica Mountains just minutes from the beach, has been recognized in the 2026 U.S. News Best Senior Living ratings, a designation earned through direct feedback from residents and their families on the quality of care, day-to-day life, and the people who deliver it. For Ciela, the rating affirms its standing as a top choice for independent living, assisted living and memory care in Pacific Palisades on Los Angeles' Westside.

This year's ratings drew on more than 540,000 survey responses from residents and family members at over 3,200 communities across the country. Ciela's "Best Senior Living" designation reflects consistently high scores on quality of care, how engaged residents feel in daily life, and overall trust in the community's team.

In addition to the U.S. News honor, Ciela has received a Senior Housing News Architecture Award for its distinctive design and has been named a Best Place to Work in senior living, a rare pairing that reflects how the community treats residents and staff alike. The campus was built around a simple idea: that the right environment and programming can help older adults stay active, connected and inspired at any age.

"From the beginning, our vision for Ciela was to build a wellness-first, resort-style community that helps older adults live with more joy, purpose and freedom, not less," said a spokesperson
