

Cincinnati's Northern Suburbs Choose Arlinghaus as Best HVAC in Cincy Magazine's Best of the North 2026

Family-Owned Arlinghaus Takes the Top Spot in Cincinnati's Best of the North – After Winning Best of NKY Earlier This Year

CINCINNATI, OH, UNITED STATES, July 21, 2026 /EINPresswire.com/ -- Thousands of Greater Cincinnati residents made their voices heard this year – casting votes online and in person at the Best of the North event held at Cincinnati Marriott North. Across 110 categories, they chose the businesses they trust most in Cincinnati's northern suburbs. In HVAC, that choice was Arlinghaus Plumbing, Heating, Air Conditioning & Electrical.

The Best of the North puts the decision where it belongs – with the homeowners who actually live with the results. Residents across Cincinnati's northern suburbs voted for the businesses that showed up when it counted, gave them straight answers, and left their homes better than they found them. In HVAC, those votes went to Arlinghaus.

That trust is built call by call. Homeowners across Cincinnati's north side have been reaching out to Arlinghaus for [AC repairs](#) when systems quit in the middle of a July heat wave, new system installations when aging equipment finally gives out, and [heating service and tune-up](#) to stay ahead of winter. The company has made a habit of treating every job like it matters – because to the family in that house, it does.

"Cincinnati homeowners have high standards, and they should," said Heather Arlinghaus, owner of Arlinghaus Plumbing, Heating, Air Conditioning & Electrical. "We have worked hard to earn a place in this market, and winning Best of the North tells us that work is showing up in people's homes in the right way. I am incredibly proud of this team – not just for the award, but for the kind of service that makes people want to vote for you in the first place."

This recognition caps off a remarkable stretch for Arlinghaus in 2026. Earlier this year, NKY Magazine – a community-voted honor from the Northern Kentucky market also named the company the Best of NKY for Heating & Air Conditioning. Winning in Greater Cincinnati and Northern Kentucky in the same year is not something that happens by accident. It reflects a team that holds the same standard whether they are working in West Chester or Florence, in Mason or Erlanger.

Brian and Heather Arlinghaus started this company in Elsmere with a clear conviction: be the kind of business people actually want to call. More than a decade later, that conviction is showing up in award results, in repeat customers, and in more than 6,000 five-star reviews from homeowners across the region. Every job at Arlinghaus comes with a satisfaction guarantee – and a team that means it.
