

ALTTRAN to Attend Global Polymer Summit 2026

ALTTRAN, a specialty polymer mixing company based in Hudson, Ohio, will attend the 2026 Global Polymer Summit, taking place September 28-30, 2026.

HUDSON, OH, UNITED STATES, August 17, 2026 /EINPresswire.com/ --

ALTTRAN, a specialty polymer mixing company based in Hudson, Ohio, will attend the 2026 Global Polymer Summit, taking place September 28-30, 2026, at the Kentucky International Convention Center in Louisville, Kentucky.

ALTTRAN will be located at Booth 624, where attendees can connect with the company's team to discuss [custom rubber mixing](#), [rubber formulation development](#), [lab testing](#) and technical support for rubber and elastomer applications.

The Global Polymer Summit brings together professionals from the rubber, elastomer and tire industries for technical programming, networking and business opportunities. For ALTTRAN, the event provides a focused opportunity to meet with manufacturers looking for clean, consistent rubber compounds and responsive technical support.

"Global Polymer Summit brings together the kinds of companies we work with every day," said Dave Topliff, President of ALTTRAN. "We look forward to talking with manufacturers about their polymer mixing challenges and helping them find practical solutions."

ALTTRAN

Custom Mixing and Lab Support

ALTTRAN specializes in custom mixing for both black and color rubber compounds. The company supports a wide range of applications, including electrically insulative and conductive rubber, rubber rollers, plumbing components, building and construction materials, hosing and tubing, diaphragms, seals and gaskets.

Through ALTTRAN Technical Services, the company also provides formulation development, lab testing, raw material validation, product performance evaluation and rubber problem solving. These capabilities help customers confirm physical properties, troubleshoot processing issues and move new or existing compounds into production with greater confidence.

Manufacturers attending the 2026 Global Polymer Summit are encouraged to visit ALTTRAN at Booth 624 to discuss custom rubber mixing, formulation development or technical testing needs.

About ALTTRAN

ALTTRAN specializes in clean and consistent custom rubber mixing for color rubber and black rubber compounds in a variety of rubber processing applications. Based in Hudson, Ohio, the company serves manufacturers across diverse industries with rubber mixing, formulation development and ALTTRAN Technical Services lab testing. ALTTRAN focuses on building relationships that provide answers within the polymer mixing and molding industry.
