

Waterproof Flooring Demand Grows Across Metro Vancouver Homes and Condos

Luxury vinyl plank continues replacing hardwood as Metro Vancouver homeowners choose waterproof flooring for everyday living.

VANCOUVER, BRITISH COLUMBIA, CANADA, July 22, 2026 /EINPresswire.com/ -- Waterproof flooring has become one of the fastest-growing categories in Metro Vancouver's residential renovation market, with luxury vinyl plank (LVP) increasingly replacing traditional hardwood and laminate flooring in kitchens, bathrooms, laundry rooms, basements, and strata condominiums.

The advertisement for Floors Depot features a collage of images showing waterproof luxury vinyl plank flooring installed in various home environments: a modern kitchen with a central island, a bathroom with a glass shower, a basement with a living area and laundry, and a bright condo living room with large windows. The text highlights the benefits of LVP, such as being 100% waterproof, durable, scratch-resistant, and easy to clean. It also includes a circular badge stating 'SMARTER FLOORING. BETTER LIVING.' and a location pin indicating service areas in Metro Vancouver.

Floors Depot highlights waterproof luxury vinyl plank flooring for kitchens, bathrooms, basements, condos, and strata properties across Metro Vancouver.

According to [Floors Depot](#), homeowners throughout Vancouver, Burnaby, Richmond, North Vancouver, and West Vancouver are choosing waterproof flooring because it offers superior durability, moisture protection, and lower maintenance while maintaining the appearance of natural hardwood.

“

Waterproof flooring continues to be the preferred choice for Metro Vancouver homeowners looking for durability, style, and long-term performance.”

Jhon Willis

Why Waterproof Flooring Is Becoming the Preferred Choice

Unlike hardwood and laminate, waterproof luxury vinyl plank is manufactured with a rigid SPC (Stone Polymer Composite) or WPC (Wood Polymer Composite) core that does not absorb moisture.

Because it resists swelling, warping, buckling, and

delamination, luxury vinyl plank performs exceptionally well in areas exposed to spills, humidity, and everyday moisture.

Its realistic wood appearance, durability, and easy maintenance have made it one of the most popular flooring choices for Metro Vancouver homeowners.

Where Waterproof Flooring Performs Best

Floors Depot recommends waterproof flooring for moisture-prone areas throughout the home.

Kitchens

Luxury vinyl plank and large-format porcelain tile provide long-term performance around sinks, dishwashers, and food preparation areas.

Bathrooms

Porcelain tile and waterproof luxury vinyl plank remain the preferred flooring materials due to their exceptional water resistance and durability.

Basements

Luxury vinyl plank is one of the best floating-floor solutions for finished basements, where moisture conditions require waterproof flooring products.

Laundry Rooms

Waterproof flooring provides added protection against appliance leaks, humidity, and frequent cleaning.

Waterproof Flooring Options Available at Floors Depot

Floors Depot supplies and installs a wide range of waterproof flooring products, including:

- Luxury Vinyl Plank (SPC & WPC)
- Large-Format Porcelain Tile
- Ceramic Tile
- Marmoleum (Natural Linoleum)
- Commercial Waterproof Flooring Systems

Luxury vinyl plank continues to represent the company's fastest-growing flooring category for

detached homes, townhomes, and strata condominiums.

Waterproof Flooring Installation Costs

High-quality SPC [luxury vinyl plank flooring](#) generally ranges from \$6 to \$11 per square foot installed, depending on the flooring selected, project size, subfloor preparation, and installation requirements.

Every project begins with a professional assessment to ensure the existing subfloor is suitable for long-term flooring performance.
