DELTONA, FL, UNITED STATES, July 22, 2026 /EINPresswire.com/ -- [JAS Construction Group](#), a licensed Florida General Contractor with more than a decade of experience transforming homes across Volusia County, today announced a major geographic expansion into Florida's West Coast. Hurricane Milton and Helene Recovery Contractor Services

Beyond planned renovations and remodels, JAS Construction Group is positioning itself as a go-to disaster repair contractor for Florida homeowners still coping with hurricane damage. The company has extensive experience in water removal, flood cuts, and full home restoration — services urgently needed by West Coast Florida residents whose homes were impacted by Hurricanes Milton and Helene.

"Disaster recovery is not new to us — about half of our business is helping families rebuild after storms," Bradford added. "We understand what people go through. We know the insurance process. And we know how to get a home back to where it needs to be, safely and efficiently."

A Showroom Experience That Sets JAS Apart

One of JAS Construction Group's key differentiators is Creative Spaces, the company's home showroom at 1342 Howland Blvd in Deltona, FL. The showroom allows homeowners to see, touch, and walk through completed designs before committing — with a 60% lead-to-contract conversion rate that speaks to the power of experiencing materials and craftsmanship in person. While the company's physical showroom is located in Deltona, the team travels to West Coast project sites and brings samples directly to homeowners in Pasco, Pinellas, and Hillsborough Counties.
